GILLETTE POLICE DEPARTMENT
MEMORANDUM

TO: Patrick Davidson, City Administrator

FROM: Jim Hloucal, Chief of Police

SUBJECT: Liquor License Compliance Inspection Information

DATE: 1-29-2019

Pat,

In preparation for the Council's consideration of liquor license renewals, the Police Department generally provides information on compliance inspections for the previous year and any administrative actions taken for compliance failures for the last 3 years.

The following businesses each failed one inspection for selling to a minor in 2018:

Jack's Liquor
Great Wall Restaurant

You will also find two attachments. The first is a spreadsheet broken down by business detailing any category 1 or 2 violations and the administrative action or fee assessed for the last 3 years. Those highlighted in red are still pending action.

The second is the year to year comparison of crime incidents at each local liquor license establishment.

If there is additional information that we may provide prior to the City Council discussing the renewal of liquor licenses this year please let me know.

Jim Hloucal
Chief of Police

Snow Event Report #13

Event Start Date:	1/23/19	Event Start Time:	4:30 p.m.
Event End Date:	1/24/19	Event End Time:	5:30 p.m.
Duration of Event:	25 hours	Streets First Responders:	Leonard Taylor/ Billy Little

Storm Event Overview:
The Streets day crew leader called out the crew at 4:30 p.m. on 1/23/2019 wet snow was beginning to build up on the streets. Temperatures dropped quickly causing flash freezing conditions on the streets. Snow showers fell on and off through the evening keeping the crew working on priority streets and trouble areas.

Night crew took over at 7:00 p.m. 1/23/2019 the night crew worked through the night making progress plowing priority streets and subdivisions with continued snowfall and high winds.

Parks crew members came in to work at 4:00 a.m. 1/24/2019 and started working on that day's solid waste route subdivisions.

Building Maintenance staff worked the early morning hours to open City facilities and parking lots as well as some school route areas.

Streets day crew took over at 7:00 a.m. 1/24/2019 working into subdivisions. As the day progressed the weather cleared and the Streets and Parks crews were able to get through the remaining subdivisions.

The priority routes and subdivisions were plowed and treated with material by 5:30 p. m. and the snow event was ended.

Number of Pieces of Equipment Used:

Snow Plows:	10	Blades:	0
1-Tons:	5	Snow Blowers:	0
Loaders:	1	Liquid Truck:	0

Amount of Material Used:

Ice Slicer lbs:	121,931.0
Scoria lbs:	128,411.0
Brine Gallons:	45
Apogee Gallons	19

Number of Miles Plowed During Event: 1,968

Personnel:
Day Crew – Leonard Taylor, Billy Little, Melissa Bell, Scott Ostlund, John Carl, Jeremy Hagen, Spencer Edsall, Kelli O'Dea

Night Crew – Lonnie Meidinger, Garrett Wolf, Mark Webb, Nick Scherry, Dale Warren, Steve Wilcox,

Volunteer Drivers –Boyd Abelseth, Gary Schlekeway, Adan Aguilar, Steve Layman, Alyssa Watson, Jeremy Onsgard

Contractor Work Effort:
N/A

Subdivision Activities:
Streets and cul-de-sacs were plowed with plow trucks, one tons or loaders. Snow pile, windrow and ice removal continues when possible or between storms.

Parks, Solid Waste and Building Maintenance Division Activities:
All crews combined efforts to open streets and cu-de-sacs first to restore basic traffic flow, then to prepare the way for resuming Solid Waste service to daily routes.

Environmental Conditions Present:
Snow: 3.5" Drifting: Yes Rain: No Low Temp: 1 Wind: N 7-23

Equipment Issues:
None
Incidents:
N/A

Complaints/Concerns:
Four calls for slick intersections.
One complaint of a windrow in front of their driveway.

Items of Interest:
During this weather event the Gillette Police Department investigated 12 vehicle crashes. Five of these crashes occurred on a City of Gillette maintained roadway and were influenced by weather conditions.

Snow Event Report #14

Event Start Date:	1/26/19	Event Start Time:	8:00 a.m.
Event End Date:	1/26/19	Event End Time:	4:00 p.m.
Duration of Event:	8 hours	Streets First Responders:	Day Crew

Storm Event Overview:
The Streets day crew was called out at 8:00 a.m. on 1/26/2019 as wet snow was again beginning to build up on the streets. Intermittent snow showers caused slick conditions as the day crew worked on priority streets and trouble areas through the morning. The snow ended mid-day and conditions improved. The priority routes and subdivision trouble spots had been plowed and treated with material by 4:00 p. m. and the snow event was ended.

Number of Pieces of Equipment Used:

Snow Plows:	9	Blades:	0
1-Tons:	0	Snow Blowers:	0
Loaders:	1	Liquid Truck:	0

Amount of Material Used:

Ice Slicer lbs:	20,025.0
Scoria lbs:	24,015.0
Brine Gallons:	24
Apogee Gallons	0

Number of Miles Plowed During Event: 672

Personnel:
Day Crew – Leonard Taylor, Billy Little, Melissa Bell, Scott Ostlund, John Carl, Jeremy Hagen, Spencer Edsall, Josh Wright

Contractor Work Effort:
N/A

Subdivision Activities:
Trouble spot areas in subdivisions were plowed and sanded with material as needed.

Environmental Conditions Present:
Snow: .5" Drifting: Yes Rain: No Low Temp: 27 Wind: NW 18-46

Equipment Issues:
None

Incidents:
N/A

Complaints/Concerns:
None

Items of Interest:
Gillette P.D. reported there were no crashes during snow event 14.

This was an 8-hour event, falling on a Saturday.

ESTIMATED SNOW COSTS - 2018/2019

Date	Labor Cost	Equipment Cost	Material Cost	Contractor Cost	Estimated Cost of Event
10/8-10/2018 (1)	$2,057.03	$2,926.14	$1,565.48	$0.00	$6,548.65

Snow Event Report #15

Event Start Date:	1/27/19	Event Start Time:	6:00 p.m.
Event End Date:	1/28/19	Event End Time:	4:00 p.m.
Duration of Event:	22 hours	Streets First Responders:	Billy Little

Storm Event Overview:
The Streets crew was called out at 6:00 p.m. on 1/27/2019 as snow was falling and high winds were causing slick road conditions. The night crew took over at 7:00 p.m. and worked on priority streets and trouble areas through the night. High winds caused heavy drifting and caused the night crew to go back and re-work many areas. T he priority routes and subdivision trouble spots were plowed and treated with material by 7:00 a.m.

The day crew took over at 7:00 a.m. and focused on remaining subdivision streets. The subdivisions were open and passable by 4:00 p.m. and the snow event was ended. The crews then prepared to follow up in the subdivisions with loaders and trucks to haul away the snow drifts and piles that remained.

Number of Pieces of Equipment Used:

Snow Plows:	9	Blades:	0
1-Tons:	6	Snow Blowers:	0
Loaders:	1	Liquid Truck:	0

Amount of Material Used:

Ice Slicer lbs:	117,549.20
Scoria lbs:	138,549.20
Brine Gallons:	199.5
Apogee Gallons	0

Number of Miles Plowed During Event: 2,338

Personnel:
Day Crew – Leonard Taylor, Billy Little, Melissa Bell, Scott Ostlund, John Carl, Jeremy Hagen, Spencer Edsall, Josh Wright

Night Crew – Nick Scherry, Lonnie Meidinger, Garrett Wolf, Mark Webb, Dale Warren, Steve Wilcox, Kelli O'Dea, Toby Fiske

Volunteer Drivers –Boyd Abelseth, Adan Aguilar, Steve Layman, Alyssa Watson, Jeremy Onsgard

Contractor Work Effort:
N/A

Subdivision Activities:
Trouble spot areas in subdivisions were plowed and sanded with material as needed.

Environmental Conditions Present:

Snow:	.5-1"	Drifting:	Yes	Rain:	No	Low Temp:	18	Wind:	NW 18-54

Equipment Issues:
Coolant line blew out on Unit 25.

Incidents:
N/A

Complaints/Concerns:
None

Items of Interest:
During this event the GPD investigated 5 vehicle crashes of which none met the criteria of being on a city maintained road and influenced by the weather conditions. (4 parking lot crashes and 1 red light violation).

Dumping Oil Down Drains Is Illegal

Do not dump oils or industrial solvents down the drain

It is illegal to pour oil and other petroleum products, cooking oil or solvents in the drain in your home or business, or in the storm sewers at the curb

Post Date: 01/28/2019 2:00 PM

Recently, a large quantity of oil began flowing into the Wastewater Treatment Facility. It is illegal to pour oil and other petroleum products, cooking oil or industrial solvents in the drain in your home or business, or in the storm sewers at the curb. Not only is this illegal and bad for the environment, it causes major problems for the sanitary sewer system in the City. It damages equipment and severely disrupts the biological processes that need to occur to treat our wastewater, as well as producing quality compost.

Do not dump oil, grease and solvents down any drain. Dispose of them properly. If you change your oil at home, it can be disposed at any oil change location, as well as some auto part stores. If a company does oilfield work, it must be disposed at an approved facility, not down a shop drain. Solvents can be disposed properly at the Campbell County Landfill. Cooking oil can be disposed in your garbage. Let it cool and place in a container, like a milk jug.

If you see anyone disposing of any of the these products improperly, please contact the City of Gillette Wastewater Division at 686-5274.

PROPOSED FOREST PLAN AMENDMENT UPDATE

By Chris Wichmann, Wyoming Department of Agriculture

In early 2018, the Forest Service came to the Wyoming Department of Agriculture (WDA) and asked if WDA could help them in identifying and addressing the issues with the current prairie dog management on the National Grasslands. The past 10-years have been a roller coaster ride for all interested parties who operate on the grasslands. The current prairie dog management plan (Plan) limited the Forest Service's ability to actively manage prairie dogs in certain areas. It all came to a head in 2017 when the prairie dog population had occupied an estimated 100,000 acres (+/-). This was unacceptable to a lot of livestock producers, local governments and Forest Service management; because the concern was that the current conditions could impact ecosystem functions. In 2017 plague arrived on the grasslands and decimated the prairie dog population. This plague event has allowed the Forest Service, interested landowners and grassland groups some time to address management issues that have occurred on the grasslands for the past few years.

The Forest Service has committed to the Group that a Forest Plan amendment would occur in early 2019, to address the many management issues and ecological damage that has been occurring on the grasslands for the past several years. One issue identified was that all the interested groups were not at the table at the same time to identify issues and identify potential solutions. The WDA has convened several meetings through the second half of 2018 consisting of state, federal and local governments, permittees, private landowners, and Non-Governmental Organizations (NGO). WDA discussed with the Group issues and potential changes that could help the Forest Service have the most flexibility to adaptively manage the changing situations that occur on the Grasslands and identify areas where the Group could agree on potential management changes. At the end of the collaborative effort, it is WDA's desire to provide the Forest Service with enough information/agreements on potential management changes to guide the Forest Service in developing a Proposed Action that they can use in scoping for the new Plan Amendment.

The Group broadly agreed upon several large changes to be considered in the Plan Amendment. The hopes is that these changes will be developed into a formal Alternative and be supported in the NEPA process as the Preferred Alternative. Areas where WDA feels that there is broad agreement is the following:

- There will not be a focus on Black-footed Ferrets introductions on the Grasslands;
- There will be the removal of the prairie dog management Categories;
- There will not be a number of acres of prairie dogs designated to manage for;
- There will be a change in management from growing prairie dog populations to managing an area for a desired vegetation/habitat state in a designated management area;
- There will be flexibility and use of the entire "tool box" of prairie dog control measures within the new management area and throughout the Grasslands;
- There will be a Working Group developed to discuss issues, and to make sure the implementation of the new management Plan is implemented;
- The Working Group will provide recommendations to the Forest Service on new issues and needs that occur on the Grasslands.

These are some of the large items discussed and that we received broad agreement on. Not everyone got what they wanted, but the potential for better management on the Grasslands exists.

Now that the collaborative meetings (6-meetings) have been completed and the information sent to the Forest Service, it is up to the Forest Service to start the formal NEPA process.

BOARD OF SUPERVISORS

LINDSAY WOOD (307) 670-0171
Chairman, Rural Member

ACACIA ELKINGS 660-5265
Vice Chair, Urban Member

JAIME TARVER 680-9715
Secretary/Treasurer, Rural Member

BJ CLARK (307) 689-5471
Supervisor, Rural Member

SCHEDULE OF EVENTS

February 2-6, 2019	NACD Annual Convention in Texas
February 10-14, 2019	SRM Convention in Minnesota
February 11, 2019	Pesticide Training in Gillette
February 12, 2019	CCCD Board Meeting
February 18, 2019	Presidents' Day - office closed
February 20-21, 2019	Wyoming Watershed Conference
March 12, 2019	CCCD Board Meeting
March 19, 2019	Legislative Wrap Up
April 6, 2019	Garden and Landscape Expo
April 9, 2019	CCCD Board Meeting
April 23, 2019	Ag and Natural Resources Expo

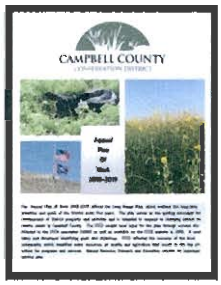
Left to right: Board members - Acacia Elkins, Lindsay Wood, Bob Maul, and Jaime Tarver

THANK YOU!

The CCCD board and staff gives their sincere thanks to Bob Maul for his service on the CCCD Board of Supervisors. Bob was presented with an appreciation award for serving on the CCCD board 2012-2018. Bob was sworn in as a Campbell County Commissioner in January.

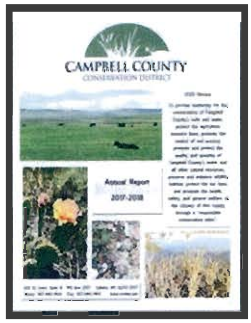
The Wyoming Department of Agriculture will appoint an individual to complete the vacated term through 2020.

New Board of Supervisor officers elected in January were Lindsay Wood, Chair; Jaime Tarver Vice-Chair, and Acacia Elkins, Secretary/Treasurer.



The CCCD Annual Report 2017-2018 and Annual Plan of Work 2018-2019 are available on our website www.cccdwy.net for your review.

Along with information about the Seedling Tree Program, Water Quality, Educational Information and more!



Jennifer Hinkhouse, District Manager and Mike Henn, WCDEA president

Wyoming Association of Conservation Districts Annual Convention November 14-16

Left to right: Tim Kellogg, NRCS; Debbie Hepp, CCCD; John Heyneman, PSI; Robert Brug, WNRF; Jennifer Hinkhouse, CCCD and Bob Maul, CCCD

The CCCD board and staff were very active during the annual convention in Evanston, taking part in many presentations, listening to a variety of speakers, and assisting the host districts.

As the Conservation District representative for the ENDOW Rural Council, Jaime Tarver presented an overview of ENDOW. Bob Maul was presented with a jacket from the WACD Board of Directors for his years of service. Robert Brug was acknowledged for his many years of volunteering to the Wyoming Natural Resource Foundation in addition to being a previous CCCD and WACD board member. Upon nomination by the CCCD, John Heyneman with Plank Stewardship Initiative received WACD Cooperator of the Year. Jennifer was given the Area I Employee of the Year award, and Debbie received a Water Quality Certification Award.

NACD MEETING 2019

Jennifer plans to participate in the National Association of Conservation District's 2019 Annual Meeting in San Antonio, Texas February 2-6.

The Convention is an investment in conservation. Each year, conservation leaders from across the country gather in one place to discuss conservation policy, network with conservation partners and members of industry, and learn about the newest technologies and most relevant issues affecting natural resources management and conservation districts.

Decision Impacts Only Small Part of Trespass Law

Portions taken from Wyoming Livestock Roundup, 11-3-18

On Oct. 29, after the ruling Wyoming Senior Assistant Attorney Erik Petersen clarifies, "We prevailed with two sections of the law in district court 18 months ago. The only part of the trespass to collect data law that was struck down is subsection C.

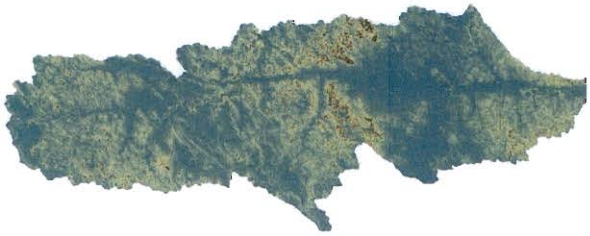
In 2015, the Wyoming Legislature passed a set of laws that would make the collection of resource data from private lands illegal. The laws also made it illegal to cross private land to reach public land for the purpose of collecting resource data.

Per Mr. Petersen, if someone goes and collects data from private property without permission, that is still illegal. These laws are alive, on the books and will remain there unless the Wyoming Legislature takes action on them. Subsection C both criminalized and imposed civil penalties for people who cross private property without permission to access adjacent property to collect resource data. This law has been struck down.

Provisions of the law that say resource data collected in violation of the law will be expunged from the record. State and Federal agencies cannot use illegally collected data in decision making.

"Under our general trespass statutes, it's still illegal for people to trespass," says Bobbie Frank, WACD executive director.

Donkey Creek Watershed



Cost-Share Program Opportunity

Through Federal and State grants, the Campbell County Conservation District and the Donkey Creek Watershed Steering Committee are offering financial assistance for projects that will benefit water quality.

Funding Overview

Typical projects may include installing fencing/ stock water to minimize access to waterbodies, relocating corrals or animal feeding areas away from surface water, or replacing septic systems to eliminate sewage discharges. The amount of cost share available for each project varies. Projects ranked as high priority may receive up to 70% funding. If you think you would like to apply for cost-share funds through the District's water quality improvement program, you are highly encouraged to see if you are qualified.

Application Information

Applications will continue to be accepted and reviewed based on fund availability. The District staff is available to answer any questions or provide technical assistance regarding potential projects or the application process. Applications are available at the District office or you can download a copy from our website www.cccdwy.net.

Step One: Self Assessment/ Application

Completed by the landowner. You may download one off the CCCD website (cccdwy.net) or call the office and have one mailed to you.

Step Two: Site Visit/Ranking

Completed by CCCD staff along with the landowner to evaluate resource concerns. CCCD will use ranking sheets to determine priority and eligibility

Step Three: Contract/Budget Development

- Grant/ SHPO Authorization (Up to 60 days)
- Permits
- Cost estimates

Step Four: Approval

Contract must be signed by the landowner prior to Watershed Committee and Board approval **AND** must include all documentation required in Step Three.

Step Five: Construction

Construction can begin following an **APPROVED** and **SIGNED** contract and budget. The Board WILL NOT make payments on any contract items constructed prior to an approved contract.

Step Six: As Built Payment

CCCD staff conduct site visit to validate construction elements and take pictures. Landowner submits all receipts to CCCD for payment which may take up to 90 days.

NOVEMBER

- Jennifer and Clay were in the field for a Timber Stand Improvement site visit on November 2.
- On November 5, Tim, Jennifer, and Clay had a site visit for a proposed Donkey Creek project.
- Jennifer attended the County Commissioners meeting November 6.
- Crystal, Debbie, and Jennifer attended the board meeting on November 7.
- November 8, Jennifer and Wyoming State Forestry personnel were in the field for a Timber Stand Improvement project.
- Jennifer, Debbie, Bob, and Jaime attended the WACD convention in Evanston, November 13-16
- November 19, Jennifer was in the field for the RCPP project.
- November 20, Clay and Jennifer were in the field to layout a seed plot project and flag a TSI project.
- November 27, Jennifer attended the WDA Prairie Dog Meeting in Douglas.
- Clay and Debbie took soil samples for a cover crop project in the Rozet area on November 27.
- Crystal provided the "Cloud in a Cup" activity for 17 homeschool students on November 27.
- Jennifer and Clay were in the field flagging a Timber Stand Improvement site on November 28.
- Clay, Debbie and Jennifer attended the Little Powder River Watershed Committee meeting on November 29.

DECEMBER

- December 6, "Renewable and Non-renewable Resources" was the activity presented by Crystal to 6 home school students.
- The USDA Holiday Open House was held December 7, with 43 attending.
- December 10, Clay and Jennifer took soil samples for the cover crop projects.
- All staff attended the Board meeting on December 11.
- Jennifer traveled to Douglas on December 17 to attend the WDA Prairie Dog meeting.
- December 19, Jennifer attended a BLM RMP meeting in Gillette.
- The annual Legislative Breakfast was attended by all CCCD staff, 3 board members, 2 county commissioners, 7 legislators, and Bobbie Frank with WACD on December 20.

JANUARY

- On January 3, Jaime and Debbie attended the Eggs and Issues breakfast meeting hosted by the Chamber.
- Jennifer, Clay, and Debbie attended the board meeting on January 8.
- CCCD hosted the Soil Workshop #3 on January 15 with 40+ attending.
- Crystal provided a conservation activity for 36 3rd grade students at Meadowlark on January 16.
- January 17, Clay and Jennifer presented a water quality program to 25 members of the noon Rotary Club.
- On January 24, Clay, Jennifer, and Debbie plan to attend the Little Powder Watershed meeting.
- Crystal will provide a natural resource activity for home school students on January 28.
- On January 28, Jennifer and Clay will attend a joint meeting with Crook County Natural Resource District to review the Belle Fourche Watershed water quality.

SRM 2019 MINNEAPOLIS

2019 Society for Range Management Convention in Minneapolis

As Wyoming SRM president, Clay plans to participate in the Society for Range Management Convention, February 10-14. His presentation is titled, "Needles in a Haystack: Identifying Thresholds in Annual Grass-Dominated Rangelands."

The Society for Range Management is the professional scientific society and conservation organization whose members are concerned with studying, conserving, managing and sustaining the varied resources of the rangelands which comprise nearly half of the land in the world.

Soil Health Workshop #3

January 15th, 40 attendees heard presentations from Caitlin Youngquist, University of Wyoming; Ann Fisher, Montana NRCS, and Marlon Winger, Wyoming NRCS.

Caitlin presented soil health basics, improvement practices and the economic benefits of soil health. Ann provided the lessons learned with cover crops in southeast Montana. Marlon reviewed Carbononics; carbon, the economy of the soil.

Pesticide Applicator Training

For individuals who need a private pesticide license, to renew their private pesticide license or gain CEU's for your commercial license.

The trainings will be held:

Sundance: January 30th, 1pm-4pm
Crook County Community Room

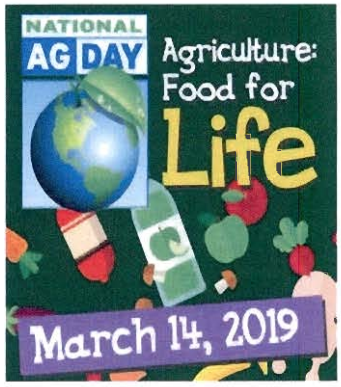
Sheridan: February 4th, 1pm-4pm
Watt Agriculture Center

Gillette: February 11th, 1pm-4pm
George Amos Building Cottonwood Room

Newcastle: February 13th, 1pm-4pm
USDA Service Center Conference Room

Sheridan: April 3rd, 1pm-4pm
Watt Agriculture Center

Contact Blake Hauptman at bhauptma@uwyo.edu or call 307 283-1192 if you have any questions.



National Agriculture Day

What Is Ag Day?

It's a day to recognize and celebrate the abundance provided by agriculture. Every year, producers, agricultural associations, corporations, universities, government agencies and countless others across America join together to recognize the contributions of agriculture.

NEW PRIVATE LANDS WILDLIFE BIOLOGIST

Raised overseas in a military family, Jessica's interest in wildlife and rangeland conservation was sparked during her time abroad. She completed her dual degree in Psychology and Spanish at Gettysburg college, later continuing her higher education in wildlife and rangeland management in Colorado. Jessica's travels finally brought her to northeastern Wyoming where she assisted in the Thunder Basin Research Initiative, examining vegetation community response to interactions of disturbance regimes including wildfire, prairie dogs, and livestock grazing. This research extended to an in-depth study of prairie dog behavior and habitat selection. When plague hit the colony, she assisted several agencies mapping prairie dog colony expansion and resiliency. Following her time in Thunder Basin, Jessica returned to Colorado to work as a park ranger for state and city parks, dedicating her time to promoting natural resources education and raising awareness for conservation efforts… but Wyoming quickly called her back home. Jessica Weathers is now the Private Lands Wildlife Biologist in Gillette with Bird Conservancy of the Rockies/NRCS connecting ranchers with conservation efforts for wildlife habitat improvement and promoting sustainable management practices on private land.

Mark your calendars for The Garden and Landscape Education Expo April 6, 2019 in the Energy Hall at the Cam-Plex in Gillette!

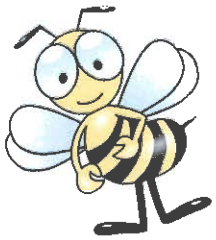
The Expo is so much more than gardening. The Expo is an event that features a Farmers Market and workshops geared toward outdoor living. You can come and go as you please and its FREE. There is something for everyone.

PICK UP YOUR SEEDLING TREE ORDERS ON MAY 2!

If you ordered seedling trees from the CCCD they are available for pick up:

May 2, 2019 at the Rockpile Ice Arena, 1 21 4J Road in Gillette. Please pick up your trees from 11:30am to 2pm.

This is the only delivery time so please make arrangements if you can not pick up your trees. There is also a limited amount of the tree protectors (used with conifers) available at $3.50 each.



There is nothing inherent in all flower varieties produced by plant breeders (amateur or professional) that means bred plants will not be beneficial for pollinators. In the few studies on this subject to date, scientists chose flowers they thought would have issues and compared them to other flowers. There are some cultivated flowers, such as very "doubled" varieties where petals have replaced all the parts that pollinators use. These won't have much to offer pollinators but if they make you happy, just make sure the pollinators have lots of other flowers to forage on. You will both be happy! If in doubt about a plant—plant it and then observe. Do pollinators visit it in your area?

This information and more can be found in "Promoting Pollinators On Your Place". Stop by for your FREE copy!

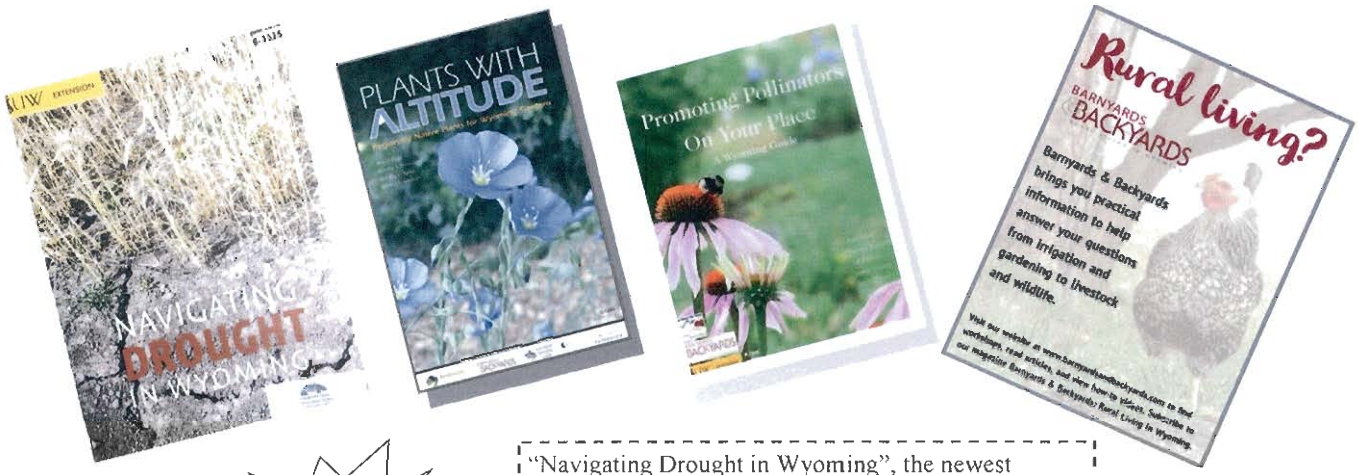
WEED BARRIER INFORMATION

DeWitt Sunbelt woven ground cover consists of 3.2 oz. polypropylene, which resists tearing, puncturing and weed penetration.

This product is offered on the seedling tree order form *only* and is not kept in stock.

THE LAST DAY TO ORDER WEED BARRIER IS *MARCH 1st*.

SEE THE SEEDLING TREE ORDER FORM INCLUDED IN THIS NEWSLETTER!



FREE!

"Navigating Drought in Wyoming", the newest addition to the family of free items we have for you! Stop by the office and ask for your free copy today!

NACD STATEMENT ON EPA'S WOTUS RULE

(New rule provides opportunity for locally-led conservation)

WASHINGTON, D.C. — On Tuesday, Dec. 11, the Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers unveiled rulemaking which includes a new Waters of the U.S. (WOTUS) definition under the Clean Water Act.

The proposed rule is designed to review and revise the definition of WOTUS to ensure it is consistent with the Trump Administration's Feb. 2017 executive order. The National Association of Conservation Districts (NACD) President Brent Van Dyke issued the following statement on the proposed rule:

"We're pleased with efforts of the EPA and Army Corps of Engineers to address the complexities surrounding the definition of jurisdictional waters," Van Dyke said. "Locally-led conservation, including local decision-making, must be at the forefront of these clarification efforts, which is why NACD has consistently opposed the expansion of federal jurisdiction under the Clean Water Act. We are optimistic this rule will provide increased clarity and transparency around current WOTUS regulations and help landowners have a better understanding of what is compliant with the law. We look forward to working with the EPA and the Army Corps of Engineers to provide additional input as we complete our review of the proposed rule."

About the National Association of Conservation Districts:

The National Association of Conservation Districts is the non-profit organization that represents the nation's 3,000 conservation districts, their state and territory associations, and the 17,000 men and women who serve on their governing boards. For more than 70 years, local conservation districts have worked with cooperating landowners and managers of private working lands to help them plan and apply effective conservation practices. For more information about NACD, visit: www.nacdnet.org.

2019 CCCD Seedling Tree Order Form

Conditions of Sale

Order No. _____

1. This nursery stock must be used for conservation purposes only.
2. No plant purchased from the CCCD may be resold as a living plant.
3. Bareroot stock is available in multiples of 25 per species only.
4. Tube stock is available in multiples of 30 per species only.
5. No guarantee of survival.
6. **Payment must accompany the order**.

TREE PICK UP DATE IS MAY 2ND AT THE ROCKPILE ICE ARENA - 121 4J ROAD, GILLETTE.
We will contact you prior to delivery with the time for pick up.

I have read and agree with the above *"Conditions of Sale"*.

SHRUBS

BUFFALO BERRY: native, good drought resistance, edible fruit
CARAGANA: medium to tall, does well on poor soils, excellent drought resistance, rapid growth rate
CHOKECHERRY: tall shrub, can be poisonous to livestock, rapid growth rate, prefers well drained soil
COYOTE WILLOW: suckers, rapid growth rate on moist soil
LILAC: excellent cold hardiness, rapid growth rate
N.M. PRIVET: very tall, alkaline tolerance, native
NANKING CHERRY: rapid growth rate. Fruit edible
NATIVE PLUM: tall shrub or short tree, does well on most soils, rapid growth rate, edible fruit, thorns
WAX CURRANT: very good drought resistance, rapid growth rate, edible fruit, native
WOODS ROSE: Low shrub; rapid growth rate, suckers

DECIDUOUS TREES

ASPEN: Tall, poor drought resistance
BUR OAK: Hardy, drought resistant, slow growth rate
COTTONWOOD, LANCELEAF: low drought resistance, rapid growth rate, suckers
COTTONWOOD, PLAINS: rapid growth, adapts to most soils, high drought tolerance - **produces cotton**
HACKBERRY: Tall tree, good drought resistance
HONEYLOCUST: good drought resistance, rapid growth
MANCHURIAN APRICOT: Small, fast growing, drought resistant, winter hardy
PRAIRIE SKY POPLAR: (USUALLY COTTONLESS) rapid growth rate, cottonwood cross
SIBERIAN ELM: rapid growth rate, excellent drought resistance and cold hardiness

CONIFER TREES

AUSTRIAN PINE: Tall, excellent drought resistance
BLACK HILLS SPRUCE: cold resistant, prefers well drained soil, drought and alkaline tolerant
COLORADO BLUE SPRUCE: Tall, slow growth rate
EASTERN RED CEDAR: Medium height, drought tolerant, very adaptable to site conditions, red-brown color in winter
PONDEROSA PINE: Tall, rapid growth rate, needs well drained soils
ROCKY MOUNTAIN JUNIPER: excellent drought resistance and cold hardiness, alkaline tolerant

ALL PAYMENTS MUST ACCOMPANY ORDER FORM. INVENTORY CHANGES DAILY!!!
LAST DAY TO ORDER IS APRIL 1, 2019. TENTATIVE PICK UP DATE IS MAY 2ND.

Bareroot Trees—lots of 25 only
Height varies by species, all bareroot trees will be 5 inches or taller

Species	# Lots	Cost/25	Total
04 Chokecherry		$31.00	
06 Native Plum		$31.00	
09 Nanking Cherry		$31.00	
11 Woods' Rose		$31.00	
21 Siberian Elm		$31.00	
35 Prairie Sky Poplar		$31.00	
37 Honeylocust		$31.00	
40 Manchurian Apricot		$31.00	
106 Eastern Red Cedar		$31.00	
110 Rocky Mountain Juniper		$31.00

CCCD Microbial Source Tracking and Cost Share Programs

By Clay Wood – Water/Range Technician

The Campbell County Conservation District (CCCD) continues to sample and monitor water quality trends within the Little Powder and Donkey Creek Watersheds. Both of these watersheds are listed as impaired for being above the Wyoming Department of Environmental Quality standard for *E. coli*. To aid in determining the potential sources and contributors to the *E. coli* load, CCCD added microbial source tracking (MST) to the established sampling protocol. Microbial source tracking is an evaluation of the microbial diversity within a sample which is able to identify individual DNA markers for targeted sources. Results of this analysis provide presence or absence of the specified genetic markers. In 2018, CCCD collected MST samples at two sites within the Little Powder River Watershed and three sites within the Donkey Creek Watershed. All samples collected from two sample sites within the Little Powder River Watershed were tested for presence of Canada goose and general avian genetic markers. Samples collected from the three samples sites within the Donkey Creek Watershed were tested for Canada goose, general avian, and human markers with a canine marker added at one of the sample sites.

Within the Little Powder River Watershed, none of the samples collected were positive for either Canada goose or general avian markers during the 2018 monitoring season. This indicates that these sources of bacteria are not likely a major source of *E. coli* in this watershed. Within the Donkey Creek Watershed 46% of the samples were positive for human, 33% positive for Canada goose, and 6% positive for general avian. Samples collected at one sample site, where canine markers were included, were positive for canine markers in 80% of the samples. These results indicate that all of the markers tested are potential sources of *E. coli* within the watershed. With potential sources identified, CCCD can assist with installation of best management practices (BMP's) intended to reduce *E. coli* within the stream.

Through a voluntary cost share program, CCCD is able to offer cost share funds to provide landowners with technical and financial assistance for implementation of BMP's aimed at reducing *E. coli* concentrations within the Donkey Creek Watershed. Some high priority projects may include fencing off riparian areas in combination with stock water development, relocating corrals or animal feeding areas away from surface waters, and replacing failing septic systems. If you are interested in participating in this cost share program please contact CCCD at (307) 682-1824.

Campbell County Natural Resource Land Use Plan (CCNRLUP)

The purpose of the CCNRLUP is to document Campbell County's goals, objectives, and policies to guide federal and state natural resource related plans, project analysis, decision-making, management and implementation Various laws require state and federal agencies to coordinate their management activities in a manner consistent with local government land use plans.

The CCNRLUP was formally adopted in 2007 at that time, the Commissioners created by resolution the CCNRLUP Committee. The Committee was tasked with conducting a timely review of the CCNRLUP and determine when updates to the Plan are needed. The CCNRLUP was amended and adopted again in 2016.

Debbie was re-appointed to fill the Conservation District position on the Campbell County Natural Resource Land Use Plan Board for the 2019-2021 term

GARF

Gillette Abuse Refuge Foundation

You are invited to Gillette Abuse refuge Foundation's 23rd annual "Chuckle for Charities" fundraiser. This year's event will be a "Tribute to the Legends of Music."

The Gillette Abuse Refuge Foundation (GARF) is a non-profit organization dedicated to providing a comprehensive range of quality services to meet the needs of those affected by domestic violence and or sexual assault, and to reduce the elements that foster violence through community collaboration, education and to empower victims in Campbell County, Wyoming.

During the 2017-2018 year GARF provided 482 unduplicated clients with 5,291 services. The agency also provided 67 adults and 54 children with emergency shelter for 2,735 nights. Funds raised by Chuckle for Charities are used for the following:

- General Client Aid- financial assistance for necessities including work clothes, child care, and safety protections such as changing locks.
- 24- Hour Crisis Line
- Community Outreach and Education
- Volunteer Program
- Shelter costs

The evening consists of:

- 6:00 P.M. Social Hour- Cash Bar, Silent Auction, Wall of Wine, 50/50 Raffle
- 7:00 P.M. Dinner and Music Entertainment
- 8:00 P.M. Local Comedy Acts Perform

Please consider supporting the event in the following ways:

- Individual Ticket Purchases- $75.00 per person
- Table Purchases - $600.00 per table (tables seat 8 and will be reserved)
- Sponsorship-
  - $2,500 Platinum level benefits include: 2 reserved tables (seating for 16), advertising on all event printed material, and recognition throughout the event.
  - $1,000 Gold level benefits include: 1 reserved table (seating for 8), advertising on all printed materials, and recognition throughout the event.
  - $500 Silver level benefits include ½ reserved table (seating for 4), advertising on all printed materials, recognition throughout the event.
- Donations of Silent Auction items and Wine

If you are interested in supporting GARF, call the office at 307-686-8071 for additional information or fill out the attached form.

Chuckle for Charities
Saturday, March 2, 2019

- **What is Chuckle for Charities?** Chuckle for Charities is the primary fundraising event for G.A.R.F. The evening consists of a social hour, dinner, 50/50 raffles, a silent auction and comedy act entertainment. The cost is $75.00 per person. G.A.R.F. benefits from the proceeds of the ticket sales, raffles and silent auction.

- **Who benefits from Chuckles?** The acts that perform are voted on by the audience and given cash prizes to be donated to a local charity of their choice. Prizes ranging from $125 to $1,000 are awarded. Since Chuckle for Charities began in 1997, the following agencies have received cash donations from the comedy acts:

Abundant Life Church
ACS Relay for Life
American Cancer Society
American Heart Association
Birthright
CC Boys and Girls Club
CC Humane Society
CC 4-H Council
CCHS Drama Club
CCHS Interact Club
