Background, Survey Development, and Response Rate:

In April of 2026, the Town of Wright, City of Gillette, and Campbell County Board of Commissioners contracted with the Campbell County Chamber of Commerce to survey all registered voters in Campbell County, with regards to funds generated by the 1% sales tax. Voters were asked to rank how their communities should prioritize the investment of these funds, in addition to being asked what, specifically, is their biggest priority.

The survey's content was provided by the City, Town, and County. Each of the projects were presented to respondents on a four-point matrix: "Do Not Fund," "Low," "Medium," and "High" priorities.

A mailing list of registered voters was generated by the Campbell County Elections Office and transmitted to the Chamber via email on June 3, 2026. There were **18,422 registered voters** as of that date.

The approved survey document was sent to Simpson's Printing in Gillette, who printed and then mailed the surveys the second week of July. An unknown number of those surveys were undeliverable. An online version of the survey was also made available starting the second week of July on the Chamber of Commerce website and Facebook page. The QR code for the survey was made available to the City, County, and Town upon request.

In total, **2,142 surveys were returned** to the Chamber, either via postal service, dropped off at one of eight locations around Campbell County, or filled out online. The number of surveys completed via the online link was **501**. The return date was listed as September 18, and survey boxes were collected on September 21. Additional mailed in surveys were received and counted as late as October 5.

Of the surveys received, **2,142** had results that were able to be tabulated.

The number of surveys returned would suggest a return rate of 11.6%, though the actual number is more than likely to be higher, if it were possible to calculate the number of surveys that reached their intended destination. There were also likely surveys that were sent without postage that did not reach the Chamber.

Overall Survey Results:

TOWN OF WRIGHT

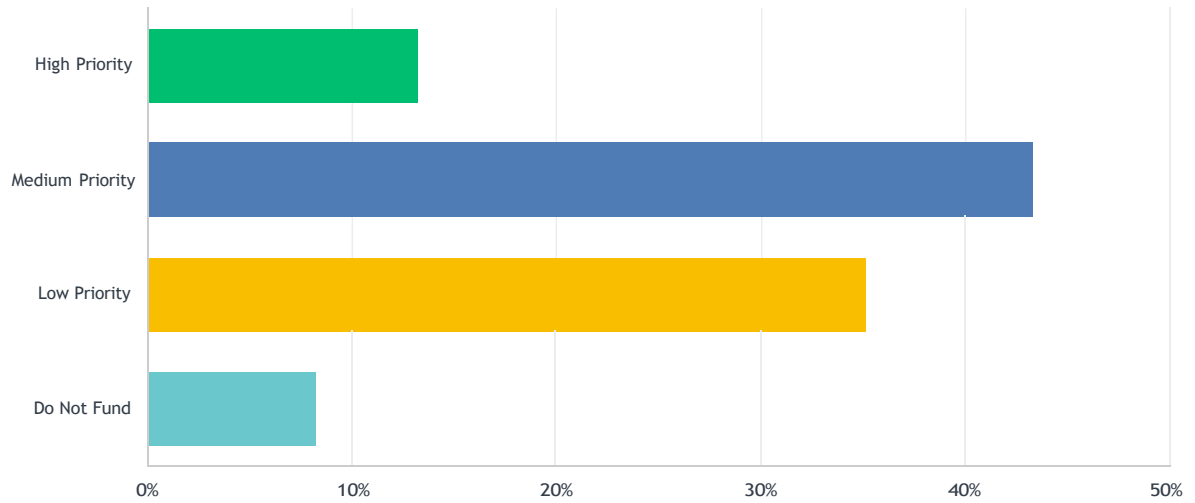

Out of 2,142 surveys, 1,019 respondents (48%) ranked twelve (12) different projects proposed by the Town to spend 1% sales tax funds on in the next four years.

Additional Responses – out of 1,019 respondents, 70 suggested other priorities for the Town to spend 1% sales tax funds on in the next four years.

- 1 Non-profit- Do NOT Fund
- 2 Business District
- 3 Senior programs
- 4 Gurley Overpass- High priority
- 5 Speed traps on Hwy 59-high priority
- 6 Spray for weeds & thistles-high priority
- 7 Wright Centennial Museum- High priority
- 8 Plan for growth to double your size in 10 years. They are coming & can come here.
- 9 AI & Nuclear
- 10 Senior Housing
- 11 Public Safety
- 12 Rec center passes for all Wright children- High priority
- 13 Long range rifle range- High priority
- 14 Parking lot around mall
- 15 Lower Taxes
- 16 There is no 1% Tax
- 17 Water for golf course from general 1% fund- Do NOT fund
- 18 Water system- High priority
- 19 Library- Med priority
- 20 Restrooms at all parks- High priority
- 21 Put all the funds on the Gurley Overpass
- 22 Splash Pad
- 23 Enhance Fishing Pond
- 24 Golf Course
- 25 SSSC/WCA
- 26 How about a proper tornado shelter? How about affordable housing?
- 27 Pond remodel
- 28 Pond cleanup/beautification
- 29 Social Services
- 30 Splash Pad
- 31 Don't ignore the survey results like you did the last time.

- 32 Traffic cameras
- 33 Hope tax fails- Do NOT Fund
- 34 Veterans- High priority
- 35 Quit Spending
- 36 Conservation/ Wildlife Overpasses- High priority
- 37 Low income emergency funds like LIEAP- high priority
- 38 Mental Health Facilities- High priority
- 39 Water & Sewer- High priority
- 40 Recycling Center- High priority
- 41 Environmental Sustainability (Recycling, clean energy)- High priority
- 42 Veterans Services- High priority
- 43 Infrastructure for economic development that will priority a strong ROI
- 44 Housing
- 45 1% created to improve our town. Family's/mothers need indoor activities that are low cost to get kids out and with other children during cold days winter months. Fund Friday night swimming at rec center when kids are having sleepovers
- 46 Eliminate property taxes
- 47 Weedkilling
- 48 Fund the animal shelter or have the City and County put more in the budget. It is the city low priority . Maybe the new Chief of Police will do it.
- 49 Recycling- High priority
- 50 Panther Pond is in dire need of cleanup and better management.
- 51 Economic Development
- 52 Recycling bins similar to what Casper or Sheridan has.
- 53 Economic development
- 54 Postage Provided- High priority
- 55 Pickleball Courts- High priority
- 56 Gurley Overpass- High priority
- 57 Fund Gillette Reproductive Health!
- 58 Economic Development
- 59 I have seen this town and county waste enough money. We need to cut spending and reevaluate needs and wants. Fulfill the needs and save for the wants without raising our taxes. Government

no matter the size needs to be reminded we went to war with the British for only 1% asking for that from us now, is crap.

- 60 Teen programs and parenting education
- 61 Rest area is wonderful, please keep this area clean and functional. Panther park and Rec center, golf course, and Ag center are all wonderful programs and need to be funded and staffed. I do not live in Wright but over the last 45 years. Do not understand what capital replacement fund is used for in Wright since I do not live there.
- 62 Economic development
- 63 Gillette should not pay for Wright
- 64 Wright Community Assistance /Senior Center
- 65 Defund police
- 66 More bike paths in Gillette
- 67 Youth activities
- 68 Infrastructure
- 69 Veterans Services- High priority
- 70 Library Funding- Med priority

- 200 Animal Shelter
- 201 Park maintenance-weeding, watering, etc.
- 202 Park maintenance-weeding, watering, etc.
- 203 Lower water rates
- 204 Lower water/electrical rates
- 205 Environmental sustainability (recycling, clean energy, public transport)
- 206 Economic Development
- 207 Economic Development
- 208 Recycling Center
- 209 Gillette College
- 210 Gillette College
- 211 Livable income standards
- 212 Public transportation
- 213 Crestview infrastructure
- 214 Pickleball
- 215 Gurley Overpass

- 216 Repave Saunders Blvd.
- 217 Resurfacing Saunders Blvd.
- 218 Veterans Services
- 219 CAM-PLEX upgrades
- 220 Tax dollars go to emergency services. This extra was created to clean up and make Gillette attractive. Family events.
- 221 Fiber-Do NOT fund
- 222 Library
- 223 Traffic Law Enforcement
- 224 Fire Training facility
- 225 Fix the bridge
- 226 Economic Development
- 227 Never seen the money they are putting in the power, water and sewer. Wages are getting out of hand. With employees not being accountable, evaluation is a joke. It makes the upper management look good.
- 228 Affordable Housing
- 229 Fire Dept. & EMS-High Priority; Police-Do Not Fund
- 230 Continue the art works in our community
- 231 Economic Development
- 232 Economic Development
- 233 Recycling
- 234 Housing for Seniors
- 235 Animal management
- 236 Economic Development
- 237 Senior Housing
- 238 Take care of Veterans
- 239 Women's Clinic
- 240 Lower cost of City utilities
- 241 Economic Development and diversification; Gurley Overpass funding
- 242 Economic Development
- 243 Recycling bins similar to what Casper and Sheridan have

- 244 Add more softball fields. Build the other 4 at the Energy Capital Sports Complex. Building something similar to The Ranch that Casper built. It houses volleyball, basketball, indoor soccer, softball, and batting cages.
- 245 No funding to bike paths. Nice to have but don't get used proportional to their costs.
- 246 Economic Development
- 247 Postage provided (on the survey return envelope)
- 248 Economic Development
- 249 Economic Development
- 250 Early Childhood Support
- 251 Pickleball Courts
- 252 Gurley Overpass
- 253 Stop allowing companies like Visionary to rip up private properties to install their stuff. Now I have an ugly green box on my property that I didn't agree to be placed there. Things like this make me want to move outside of City limits.
- 254 Gillette College
- 255 Gillette College
- 256 Water quality improvement
- 257 Gillette College
- 258 Beautification of Gillette
- 259 Remove religious symbols from City planters
- 260 Lower utility bills
- 261 Improve local dog park (o-so fun dog park) with water & lighting
- 262 Landscape/lighting/water at o-so fun dog park
- 263 Do not fund VOA. They are not from here. If you are not funding Gillette Reproductive Health, they help women in Gillette.
- 264 Take Gurley bridge down and build a STREET in its place.
- 265 Economic Development should never have been left off this list. That decision was strategic in nature by the County Commissioners. Just as our County is starting to see benefits of long-term economic development, the County is seemingly turning its back on something that is about to bring significant benefits. Economic Development is absolutely a high priority.
- 266 Economic Development
- 267 Economic Development
- 268 Take care of streets and buildings
- 269 Affordable Health Care

- 270 Gillette Reproductive Health
- 271 Gillette Reproductive Health
- 272 Rebuild Gurley Overpass
- 273 Rebuild Gurley Overpass
- 274 Affordable Housing
- 275 Teen programs and parenting education
- 276 I don't know if anything needs to be added for parks and landscaping, just maintained. It seems like this year I've been to several parks where the weeds/grass are overgrown and some of the things need to be maintained. Just want to see the things we already have taken care of.
- 277 The Rockpile Museum is in the process of getting a new building long overdue! Many projects in Gillette/County have had funds used to get buildings started/start-up cost. This is a very worthy organization!
- 278 Recycling Center
- 279 Efficiency of City water usage (i.e. boulevard sprinkler sizing and range). Maintaining existing sidewalks and paths (NOT adding more). Proper project management of funds going to specific pre-defined projects rather than allocating amounts to departments with no understanding of available projects. (I would rather take a survey on specific penny tax projects.)
- 280 Add water and shade to the dog park. There is no group to take care of it. It is used constantly.
- 281 With water improvements, I believe we pay enough with the mandatory cost each month for water hookup. If there is not enough money from that to improve any of the water projects, then someone should be fired, or they're laundering the money somewhere.
- 282 Energy Capital Economic Development
- 283 Stop wasting money on playgrounds that don't need a complete replacement.
- 284 Economic Development
- 285 Plant greens/greenify Campbell County. And infrastructure build (i.e. incentivizing new businesses, shops, and restaurants to come to Gillette)
- 286 Fire department staffing and creating a City fire department
- 287 Early intervention and mental health
- 288 I don't want the penny tax
- 289 Infrastructure to support our need for housing
- 290 Develop more soccer fields. Baseball/softball fields have been expanded/added.
- 291 More parks and more funding for kids' and adult activities
- 292 Traffic lights at the intersection of S. Gurley and E. 4th St.
- 293 Park maintenance, watering, and caring for the grass.
- 294 Streets, water, sewer, storm. No chip seals, no overlays. Build this town right.

- 295 Unleashed pets have become a serious safety issue in our neighborhoods, with dog bite reports continuing to rise. Too many owners are allowing their dogs to roam loose, creating dangerous situations for residents and children as these animals run through streets and approach people unpredictably. I'm urging the City to increase enforcement of leash laws and take meaningful action to better protect our community. I fear for the safety of our children in our City.
- 296 Would like not to have a 1% tax
- 297 Campbell County Sheriff's Deputies need a pay raise. Priority!
- 298 Defund police
- 299 Gurley Overpass
- 300 Bigger building for animal shelter!
- 301 Economic Development-provide a reason for younger generations to stay in this community besides mining coal.
- 302 Gurley Overpass
- 303 Gurley Overpass
- 304 Youth activities
- 305 Clean up neighborhoods & yards
- 306 Clean up the weeds around town
- 307 I appreciate the 1% tax used to repair roads in Sutherland last year. It was a little bit of a pain while they were working, but oh, the roads are so nice now!! Thank you!

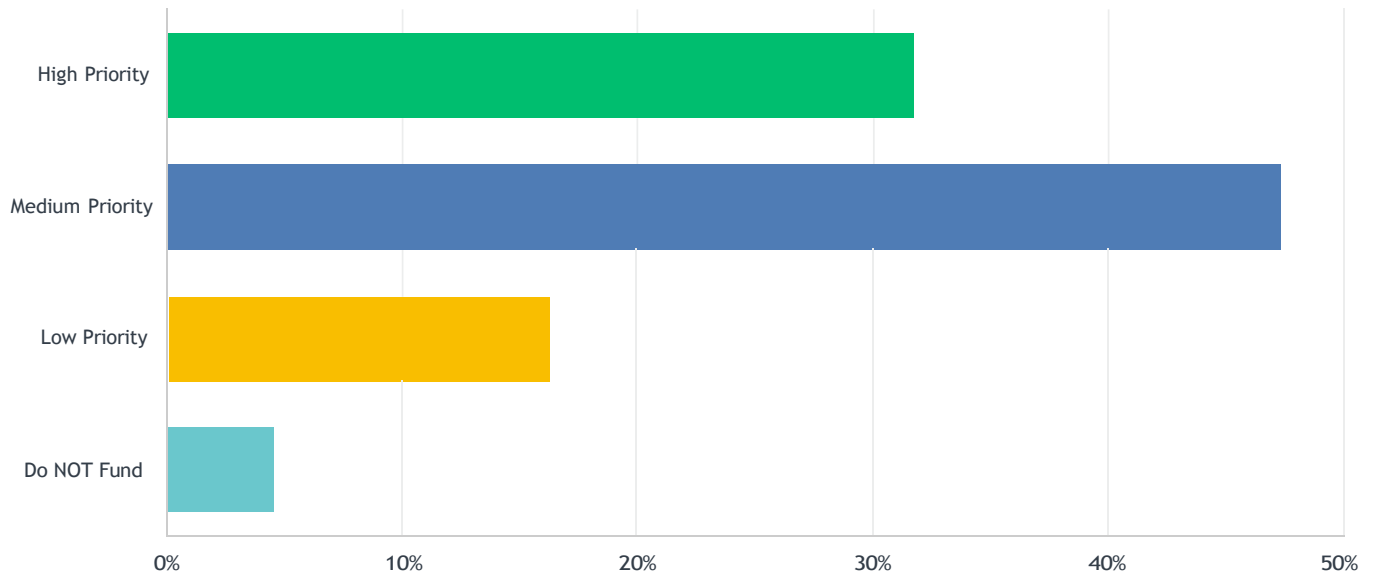

CAMPBELL COUNTY

Out of 2,142 surveys, 2,003 respondents (94%) ranked eleven (11) different projects proposed by the County to spend 1% sales tax funds on in the next four years.

	HIGH PRIORITY	MEDIUM PRIORITY	LOW PRIORITY	DO NOT FUND	TOTAL
Capital Facilities Maintenance & Repair	31.74% 609	47.42% 910	16.31% 313	4.53% 87	1,919

Solid Waste Operations	1.38%	18
TOTAL		1307

Additional Responses – out of 2,142 respondents, 246 suggested other priorities for the County to spend 1% sales tax funds on in the next four years.

ANIMAL SHELTER

- 1 Animal Shelter
- 2 Animal Shelter
- 3 Animal Shelter
- 4 Fund the Animal Shelter, don't count on public donations

BEAUTIFICATION

- 5 Beautification and parks
- 6 Spray weeds
- 7 Plant more trees
- 8 Landscaping at County facilities
- 9 Beautification
- 10 Provide big dumpsters around town
- 11 Beautification
- 12 Beautification Projects-do NOT fund
- 13 Greenify Campbell County
- 14 Beautification along roads
- 15 Clean up the weeds around the County
- 16 Clean up along roads

BIKES/E-BIKES

- 17 Bike/walking path along West 4J
- 18 Bike paths & beautification
- 19 Place for e-bikes & scooters to get them off the sidewalks & streets before someone dies.
- 20 Something has to be done about all the kids under age 16 on e-dirt bikes on streets
- 21 Bike path improvement

CAM-PLEX

- 22 CAM-PLEX funding
- 23 An indoor arena at CAM-PLEX is high priority
- 24 CAM-PLEX
- 25 CAM-PLEX
- 26 CAM-PLEX funding

- 27 Don't build a rodeo palace
- 28 Don't build a rodeo palace
- 29 Fund CAM-PLEX maintenance
- 30 CAM-PLEX
- 31 CAM-PLEX
- 32 Hire decent help/management at CAM-PLEX
- 33 CAM-PLEX upgrades
- 34 CAM-PLEX
- 35 CAM-PLEX improvements

EDUCATION (K-12/COLLEGE/PRIVATE)

- 36 Funding for private schools, not public
- 37 Promote Area 59
- 38 Schools
- 39 Early childhood education, Women's Health
- 40 Gillette College
- 41 Gillette College
- 42 Gillette College
- 43 Gillette College
- 44 Gillette College

COMMISSIONER COMMENTS

- 45 Need civics classes
- 46 Qualified County Commissioners
- 47 Yearly term limits

ECONOMIC DEVELOPMENT

- 48 Business development, housing
- 49 Economic Development. Help fund Wright's needs.
- 50 ECED-Do NOT fund
- 51 Economic Development
- 52 Economic Development
- 53 Economic Development and diversification
- 54 Economic Development

- 55 Economic Development
- 56 Economic Development
- 57 Economic Development
- 58 Economic Development
- 59 Energy Capital Economic Development
- 60 Economic Development
- 61 Energy Capital Economic Development
- 62 Economic Development
- 63 Economic Development-give Campbell County youth a career to strive for that doesn't involve coal or mining coal.

FIRE DEPARTMENT

- 64 Emergency services for county fires
- 65 Firefighters
- 66 Fire Department personnel
- 67 Wildland Fire
- 68 Medical stations in rural areas & fire station
- 69 Fire department-too much chrome & glitter
- 70 Fire/EMS/Sheriff
- 71 Fire department
- 72 A permanent fire tender to be placed in the Recluse-Little Powder area
- 73 Firefighting
- 74 County reaches long ways – roads are in need of repairs, not patches. Encourage volunteers for Fire Department youth programs.
- 75 Fire training facility
- 76 Fire department staffing and creating a City fire department

GILLETTE REPRODUCTIVE HEALTH

- 77 Gillette Reproductive Health-Do NOT fund
- 78 Gillette Reproductive Health
- 79 GARF, **Gillette Reproductive Health**, Council of Community Services
- 80 Women's Reproductive Health
- 81 Gillette Reproductive Health
- 82 Gillette Reproductive Health

- 83 Gillette Reproductive Health
- 84 Women's Clinic
- 85 Gillette Reproductive Health
- 86 Gillette Reproductive Health
- 87 Gillette Reproductive Health Services

GURLEY OVERPASS

- 88 Gurley Overpass
- 89 Gurley Overpass
- 90 Gurley Overpass
- 91 Put all the funds on Gurley Overpass
- 92 Gurley Overpass

HOUSING/SENIOR HOUSING

- 93 Housing
- 94 Housing development
- 95 Senior apartments
- 96 Senior Housing
- 97 Affordable Housing

LIBRARY

- 98 Public library
- 99 Campbell County Public Library
- 100 Library
- 101 Don't buy gay books for the library.
- 102 Library-replace Sage Bear on the board
- 103 Public library collection
- 104 Library
- 105 More support for the libraries
- 106 Libraries
- 107 Library
- 108 Library
- 109 Library
- 110 Library

- 111 Library
- 112 Establish connection with the American Library Association at our County library!

MAINTENANCE

- 113 Maintain what we have
- 114 Take care of trees already planted
- 115 Within the City area-reduce watering needs. Save water & maintenance expense.
- 116 Anything that requires ongoing maintenance-Do NOT fund
- 117 Capital Facilities Maintenance & Repair
- 118 Improvement not maintenance
- 119 Maintain what we have

MENTAL HEALTH SERVICES/DRUG TREATMENT

- 120 Mental Health services (children and adults)
- 121 Mental Health Services
- 122 Mental healthcare, public transportation
- 123 Drug addiction assistance, mental healthcare, public transportation
- 124 Drug treatment facility
- 125 Adult Behavioral Health
- 126 Mental Health facilities
- 127 Adult Behavioral Health
- 128 Adult Behavioral Health
- 129 Assisting the mentally ill, chronically homeless & drug addicted/dependent

PARKS

- 130 Parks Department
- 131 Parks
- 132 Parks
- 133 Cedar Hills Park needs a restroom
- 134 Parks improvements
- 135 Improve local dog park (O-so Fun Dog Park) with water & lighting
- 136 Again, parks-please make improvements to the Fishing Lake!

RECYCLING/LANDFILL

- 137 Recycling Center
- 138 Recycling Center
- 139 Recycling Center
- 140 Recycling
- 141 Recycling program
- 142 Recycling
- 143 Recycling/promoting less consumption
- 144 Recycle area
- 145 Recycling Center
- 146 Bring back a recycle center program
- 147 Bale trash before hauling to the landfill
- 148 Bring the recycling program back
- 149 Recycling
- 150 Recycle program
- 151 Recycling program
- 152 Start a recycling program
- 153 Bring back recycling
- 154 Recycle Center
- 155 Recycling Center
- 156 Environmental sustainability (recycling, clean energy, compost)
- 157 Bring back recycling center
- 158 Recycling
- 159 Reopen recycling center
- 160 Recycling/landfill
- 161 Landfill
- 162 Recycling bins similar to what Sheridan and Casper have.
- 164 Recycling Center

ROADS/RAILROADS

- 165 County-Union Chapel Road lots of truck traffic
- 166 County-Union Chapel Road lots of truck traffic

- 167 Roads and water
- 168 Railroad Crossings
- 169 Salt the roads during the winter
- 170 Use jail inmates to clean up garbage along county roads
- 171 Road maintenance with regular tax dollars
- 172 Rural subdivision roads & right of way maintenance assistance
- 173 Wildlife bridges/overpasses
- 174 Repave Bishop Road
- 175 Don't be like WYDOT. You can't keep good roads by trying to patch them.

ROCKPILE MUSEUM

- 176 Money for our museum
- 177 Rockpile Museum building fund
- 178 New Museum
- 179 Rockpile Museum
- 180 Museum
- 181 Museum

SHERIFF'S OFFICE/LAW ENFORCEMENT

- 182 Get sheriff's pay equal to City
- 183 Increase pay for EMTs & Sheriff's deputies
- 184 Civil preparedness
- 185 Sheriff's department shouldn't have to provide their own equipment
- 186 Joint dispatch center
- 187 Sheriff's Posse/Search & Rescue
- 188 Defund police
- 189 Not ICE

SOCIAL SERVICES/SENIORS

- 190 Accessible programs to help seniors
- 191 Social Services-do NOT fund
- 192 More help for Seniors, paying utilities & groceries
- 193 Senior services
- 194 Edible Prairie Project

- 195 Take care of veterans and seniors
- 196 Services for disabled seniors
- 197 Funding for social services
- 198 I fully support veterans; there are just tons of agencies that have funding specifically for veterans.

SPENDING/TAXES

- 199 Refund the money to property owners
- 200 Spend less
- 201 Balance the budget every year
- 202 Not for 1% tax
- 203 No new taxes
- 204 Keep a reserve for hard times
- 205 Quit spending money
- 206 Do not waste money on fashion, but functional stuff
- 207 Lower utility bills!

SPORTS/RECREATION

- 208 Tennis/pickleball courts at Dalbey Park
- 209 Offer indoor facility options for pickleball since Rec is not open the whole summer
- 210 Long range rifle range
- 211 Rec Center
- 212 Softball-girls/adult in Wright
- 213 Swimming pool
- 214 Relocate Gillette Gun Club
- 215 Relocate Gillette Gun Club
- 216 Pickleball courts
- 217 Sports facilities-don't fund
- 218 Free public gym

SURVEY FEEDBACK

- 219 Social service agencies and Conservation District/predatory animal management shouldn't be lumped together.
- 220 Social Services agencies NOT so much Conservation or Predatory Board

- 221 (Social services and Conservation District/Predatory Animal Management are unrelated and should be separated on the survey.
- 222 Postage provided (on the return envelope for the survey)
- 223 Number 27 is missing low priority...a misprint
- 224 Question 27 has a typo
- 225 *There's not a "low priority" option on 27, but that's what I tried to indicate

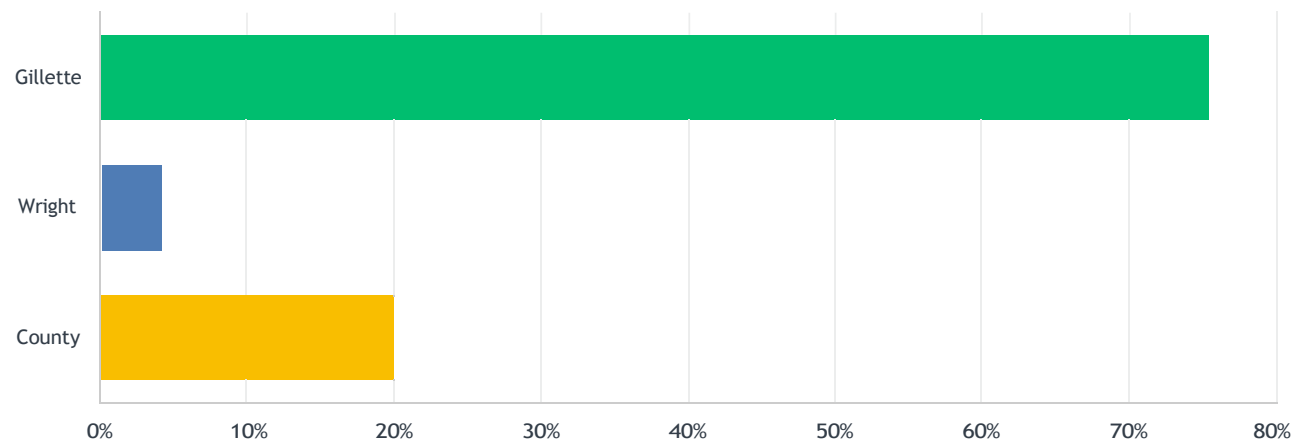

OTHER SUGGESTIONS

- 226 Infrastructure (2 comments)
- 227 Public transportation/public ride system
- 228 Tree shelter belts, water dams, solar or wind for individuals
- 229 No animal management
- 230 Road & pavement management; District Support Grants; Public Safety; Veteran's Services; Senior Citizens; Youth Programs; Social Services
- 231 Expand natural gas access to county residents
- 232 4th of July festivities
- 233 Stop data centers and nuclear waste
- 234 Northern Campbell County programs
- 235 Harden energy, electricity, water, etc. against cyberattack.
- 236 Public health assurance (school nutrition availability)
- 237 Another airline that serves more than just Denver
- 238 Affordable Healthcare
- 239 Teen programs and parenting education
- 240 Conservation District/Predatory Animal management
- 241 Safety (catch speeders south on Hwy 59 toward the mines & oil fields)
- 242 None (3 answers)

Homemaker		2.06%	42
TOTAL			2,039

ADDITIONAL COMMENTS

Additional comments from the surveys grouped by category

BEAUTIFICATION

We need more artwork; statues & trees and a visual boost for Kluver residential corner.

Even though we are not a Jackson, Sheridan, or Buffalo, we can be a BEAUTIFUL city on the Plains. We need to develop pride in our community and maintain our flower planters, facilities, trees, median between Douglas Highway & Enzi Drive & our public parks.

Need to put up streetlights along Highway 59 from Sinclair St. all the way out to the Shell Station at Antelope Valley. Also plant trees along Highway 59 south, Garner Lake, Butler Spaeth Rd, Southern Drive, South Highway 50.

Clean city streets more often. Sidewalks on Hwy. 59-get the scoria out of the grass. Kill the weeds in city sidewalks. Kill the weeds on medians Hwy 90 off ramps.

I love living in Wright. I would like to see some money go into beautification and maybe help people clean up their properties.

Get more organizations for clean-up in city Ex. Trash for Trees, streets cleaned earlier, older parts of town need clean up, back to curb pick-up for large items, Stocktrail Ave.- kill weeds in the sidewalk. Make residents clean the weeds on their sidewalks and businesses clean their parking lots. Get state to clean medians off i-90 on ramps.

Please prioritize the landscaping at the library. We've gone from being chosen as one of the best in the country to looking like we just don't care. We need to maintain what we have or build new. This also applies to our streets, no snow last year but in recent years much less plowing in our older neighborhood. Long-term degradation seems to be occurring.

Stop funding the flowers for the street planters. If an organization "adopts" the plot, let them receive a tax exemption on the purchase and BUY THEIR OWN FLOWERS. Good grief. Also put a stamp on your return envelope.

Pick up trash along roads.

Beautification of Gillette & County.

Beautiful upkeep in Gillette & County.

Enforcement on homeowners to keep front and back of their homes cleaned. And Enforcement of trash  contained with closed to prevent trashed neighbors' yards! This matter needs the City's Street Department to consider a request about litter in Residential. A suggestion to issue a ticket up to \$100.00 first time, a second time, \$150.00 and 3rd \$300.00. Then, a Warrant to stop littering with other consequences that include going before the Judge with the reasoning to continuing littering and disregarded compliance to do not littered.

CAMPLEX

CAM-PLEX park has suffered from lack of irrigation and improperly maintained irrigation and lack of maintenance- sad to see trees dying and uncontrolled irrigation leaks.

CAM-PLEX needs to bring back the musicals they used to bring in. Our sewer and water bills are way too high. We need to maintain what we currently have instead of building new things all the time.

Please take better care of CAM-PLEX- it is our "crown jewel". Please prioritize recycling.

CAM-PLEX management is terrible to work with.

CITY

The city has plenty of money to take care of all these things without using the 1%. This tax was originally set up to be used only for roads, streets, bridges etc. Was never intended for every social office and welfare. Now it's like a big fat cookie jar full of cookies- for everyone that passes by to just reach in and take a handful. Disgusting.

City doesn't listen and takes too long to make a decision!

It's time this city and county enjoy what we already have instead of wanting more! I can't believe that it cost approx. \$440,000/day to run the city of Gillette! What do the employees and city hall do? Always hiring engineer consultations for projects. Conflicts of interest are a problem with H. Gross, N. McLeland & Shay Lundvall. This town has lost its identity, more gov't employed than energy industry. Time for a house cleaning, Gillette College has become a leach on the taxpayers!!

The city of Gillette wastes incredible amounts of water with its sloppy irrigation. This needs to be fixed. This 1% money needs to be spent per the will of the people, not according to council agendas of sports tourism, statues and other wasteful personal agendas of the council.

The city council should be held accountable for the results of this poll and removed from office if votes the opposite. If you ask for public input/voice, then follow it.

No more money for baseball fields. Fix the roads! Will a consultant be paid \$200k to read these surveys and then tell the council what to do?

COUNTY

Just to explain why I put "balance your budget" on the county list- I just don't understand how you can (could) not do this!? I worked for 27 years for a local law firm and had 3 sets of books to take care of. I had to balance them monthly, and of course annually. I would have been fired if I didn't get the job done! Ridiculous that you couldn't do it. If you need more help then hire them!

The county commissioners will do just as they please -what the people of Campbell County want doesn't matter one little bit. The people didn't want a sports complex- Commissioners voted it in anyway- Didn't want BWXT- County has them come in anyway. The public opinion does not matter one bit to the county commissioners.

Focus on county more, instead of micromanaging the City, School district and other entities.

When we throw out the current county commissioners who have the vision of a blind man and replace them with truly honest and caring and most of all, people with a positive vision then we will be in good hands. Bob Jordan and Jerry Means need to be replaced because they are what is wrong with Campbell County. Thanks to the latest election that the people in Campbell County finally came to their senses

and elected people who care about our citizens and not just themselves. Also thank you Bob Jordan for increasing the vocabulary of our citizens and demonstrating what true leadership looks like. It would be great if you had any integrity and resigned, not likely.

The county commissioners should not spend 1% money on reserve funds & building management. Additionally, many sidewalks are not ADA approved. This makes pushing an infant in a stroller very difficult.

Commissioners Jordan, Means and McCrery need to stop thinking they're little Gods that know best. They don't. And no Commissioner, Treasurer, Clerk or Commissioners Administrative Director should get paid until the audit(s) are caught up and timely.

E-BIKES/SCOOTER

Better bike paths- Widen E-bikes popular.

Widen bike paths for e-bikes on busy highways.

Electric scooters and bikes are insane. It is unsafe to walk on paths because of the electric bikes on the sidewalks and paths.

Regulations for electric bikes & scooters especially are needed.

The e-bike safety issue needs to be addressed. The state of Utah recently passed new laws addressing the age and licensing of e-bikes. Check injury smart law flyer for details.

Worried about E-bikes. Enforce traffic offenders; cars, trucks, and motorcycles.

Keep the motorized and electric bicycles off the sidewalks. They have become a hazard in some areas for people just trying to walk.

Kids on E-bikes are a hazard. Something needs to be done to keep them safe. Not sure what this looks like.

Do something about all the ebikes and little motor bikes riding like they own the sidewalks. Kids are going to be obese not having to pedal or make bike/scooter go.

With all the kids riding these motorized bikes let's make them a place to ride before someone gets killed.

Please do something about the ebikes and scooters and their blatant disregard for safety and other people. There needs to be enforcement of this equipment. Kids shouldn't be able to ride however they want to; weaving in and out of traffic, using sidewalks pedestrians are on.

ECONOMIC DEVELOPMENT/GILLETTE COLLEGE

Economic Development is a waste of money-haven't seen much for the cost.

Gillette College- not sports

Gillette College (not sports programs).

Technical education plus graduate in Human Resources Management. Over 40 years in Gillette in mining plus small business. Let's put our people in places they can contribute while they earn a decent living, feeding their families and belonging!

Support Economic Development and diversification of industries that are considering Campbell County to house their businesses.

It is critical to continue to support economic growth through Economic Development.

Fund economic development.

The City and County partnerships with Energy Capital Economic Development are also extremely important and should not be the subject of uninformed argument year after year!

Support for our college.

FUNDS MANAGEMENT

It looks like you people are just looking for something new to spend money on instead of maintaining what we already have and would do just fine if maintained.

The 1% should not be a slush fund for pet projects period. It should just be used for infrastructure & maintenance of what we already have.

Instead of seeing where you can spend money, see where you can make cuts. Less taxes, less government. The government does not have to give the people everything. Just the basics are fine!

Stop funding items that parents, philanthropy, business donations could/should pay for. Recreation & "fun stuff" is not a necessity- this is where those who have should support those who have not.

Spend public funds on the needs of the community not the wants!

The county seems to spend 1% money on things that should come out of general funds. Such as the reserve fund & ongoing operations of buildings.

Not sure we need new fire trucks every 5 years just to see our old one go to work elsewhere. Our city leaders has over half the monies ratholed for a new overpass they want that was voted down money that could be used on streets, sidewalks and walking paths.

GENERAL

"The true measure of any society can be found in how it treats its most vulnerable members."- Mahatma Gandhi Without adequate law enforcement, fire protection, and emergency services a community cannot thrive, businesses will not invest, and property values can decrease. Veterans' service is a fundamental obligation to those who served the country. This not only honors their service but directly decreases the strain on emergency services.

Family connections in Gillette since 1942.

Results and comments hopefully made public- according to the above answers.

What happens when they no longer make pennies?

Praying that the Wyoming mass resistance candidates do not get into office this cycle!

What happens when they no longer make pennies?

Praying that the Wyoming mass resistance candidates do not get into office this cycle!

The way the economy is both Gillette & Wright need to have fundraisers to have want list items like a shooting range for Wright.

For local printing needs, contact Gillette Printing, please! We can print, fold, and stuff a job like this one.

2 years of college- Does not make you more wise and perhaps less wise and ignorant of our history. Based on my visits to Gillette stores, ICE is needed!

Gillette is constantly looking forward however we forget that current needs should be met while heading into the future. Planning for a public transportation system seems to be prudent at this point with all of the large businesses and current mines we have and may come.

Having services and opportunities for young women will help keep the community healthy and well balanced. If not, they will simply move where they can find these things.

Follow the priorities of the survey results, not your personal agenda. Thank you.

Many of the options are fully funded by federal and state funds. I am confused why the extra would go to salaries (large salaries + benefits) when new programs for children and adults are needed.

Is there one place that people can go online to see what maintenance or improvements have been done and are being planned? I think people become ambivalent about "government" when they don't know where tax money is going at all levels of government.

Keeping our community safe & clean.

Think needs should always be put in front of wants.

Safety and health of residents are the most important. Maintaining public used areas is a high priority.

I'm not a fan of cutting taxes that cut services. I want our towns & county to be well cared for. I want our seniors & veterans cared for as well.

"Some thoughts for your survey. So, Campbell County has been the richest most blessed county in the world for the last 50 years and instead of sending the taxpayers a check every year, you spend all the public money and are asking us to vote for more taxes.

I remember when this tax was promoted and sold the first time as temporary and would not be needed again. This is a classic example of the fact if government is allowed to do anything, the people will never get rid of it.

The power to tax is the power to destroy and history is strewn with the wreckage of too much government and excessive tax.

The American Revolution was fought against too much government and excess taxes.

From 1776 to 1930, total government averaged about 15% of the total economy. Since 1930 and in particular since 1980, total government has grown to over 65% of the total economy.

Government is taking far too much of the economic pie and making it almost impossible for the working people to capitalize, become independent, or even survive.

Throughout history, governments which have approached or exceeded 30% have failed. We currently have more than twice as much government as freedom can survive.

Government and gambling are total parasites; producing nothing in and of themselves, parasiting their existence from people and businesses who do produce.

The most destructive thing to a people group or nation is prosperity (or the debt and inflation fueled illusion of prosperity). Prosperity allows a population to ignore fiscal reality (and not immediately suffer for it) and pursue policies which are not sustainable over time.

That is why the US is 300+ trillion in debt and unfunded liability and the middle class of America is in name only because everything they have is mortgaged.

I would rather see the people have money and the government pinch pennies than the other way around. The money belongs to the people, not government.

If the people vote this in again, I think it should go for roads and infrastructure. Everyone benefits from those. Giving public money to social services or economic development is unconstitutional.

And why does the City do construction on the roads and bridges all summer and then damage and destroy the roads, bridges, and vehicles all winter by spraying everything with salt and then call for more tax every year? That is economic stupidity.

Government is like Leafy Spurge-it takes over everything and puts people out of business."

Be a leader and stop changing clocks spring and fall.

We should not need to subsidize city/county services with this money unless we are in a bind.

The Town is looking uncared for. Weeds, dead trees, grass not mowed, weeds as tall as the lilac bushes, fence down. Town not looking good. It used to be cared for.

Public entities need to start collaborating on projects. Stop arguing and start working for the betterment of the entire area!

Infrastructure is being neglected.

Making sure real folks in your community - child, infant, adult and senior all feel that they belong and are heard is most important.

We want ICE agents in all our communities.

I put public safety as a high priority and I truly believe our police and sheriffs need protective equipment and training. I also wish our city would enforce the nuisance ordinance and get our city looking good again. Cars that are junk and yards with fences falling down are terrible in our town.

Let the people decide!

The county bought the Spaeth Ranch in anticipation they would get state money for the shooting complex. This community still needs a shooting complex.

Listen to the voters!

Please stop driving trucks on the bike/walking paths. They are not streets, and they are being damaged, but not repaired. Can't they park on the streets, use their caution lights, and walk a little further?

Too much money is spent on government buildings that have too much fluff to their design. This is nationwide. Rectangle/square buildings are most cost-effective. Examples are tall/wide open breezeways that are 20 feet tall.

Why so many "freedom caucus" members on the senior center foundation board and Board of Directors? Is this going to be another Library board fiasco!!

In my opinion street maintenance, water & sewer, police & fire services should be funded out of regular revenue. The 1% taxes should go to 1 time expenses, social services, beautification projects, etc.

I am concerned about the property tax cuts (yes that is the legislation). But without income qualifications I am personally never concerned about the property taxes. They make us a great place to live and support so many basic services. Our community may be ok- but the state will be a mess. I would hope our city & county officials will use their voices to change the direction.

If you want more businesses in Gillette you have to stop voting down permit reforms. We have companies trying to improve businesses but are not getting needed permits.

North side needs attention too. Not just beautification/improvements on the south side of town.

I do not consent to the construction of any data centers or any centers related to ICE to be built in Gillette, Campbell County, or Wyoming.

I do not consent to the construction of any data centers or any centers related to ICE to be built in Gillette, Campbell County, or Wyoming.

Remember- Essential services are always first.

This was always intended to be infrastructure based, and it has been historically well utilized for those needs. I'm not opposed to utilizing funds for outside entities in need but there should be a cap (which I'm ok with it being increased a bit). However, this needs to primarily be utilized for roads, water, fire/EMS, and items that benefit the community as a whole. I also believe that the distribution to non-profits has to be a hard line of all or none. Set the bucket of money and divide it up amongst the requests. The elected officials should not be deciding to favor one group over another. You can never make everyone happy but if you have an established plan, and don't waffle, then you can always stand by the argument. People don't like it when it looks like you're picking and choosing. Looks too personal, and as luck would have it, it's the taxpayers' money.

Sage Bluffs water pressure is too low. Utility bill is too high.

I'm not happy with the way fiber was put in. We had no notification of the install. They used our front yard right-of-way. They painted arrows on the sidewalks and didn't clean them up when they were done.

Do something with the east side of Butler Spaeth north of the underpass. I have seen very little improvement to this area in my 49 years here.

Not everything the county owns is bought with 1% money so we need to stop putting Penny Power tags on everything the county owns. The machines at the rec center are a good example of this. I feel this is a good tax but will always vote no on it to let the big spenders know we are watching how it's spent so hopefully they'll be mindful of what they're doing with the money.

I feel the 1% tax should be spent on something extra for the community, not streets & sidewalks.

I'd rather not have this tax at all, but I appreciate that you seek public input of what to do with it, just hope that you follow public input vs. your own.

Listen to what the people want done with their tax dollars not politicians who represent what they want.

Money talks right?

Please do something with regard to the amount of light pollution in the residential areas of Gillette. LED lighting shouldn't go into a neighbor's house. 3rd Street between Kendrick and Gillette Ave needs to be dealt with. Either make the intersection a 4 way stop, make 3rd Street a one way, or close the 3rd Street

plaza to traffic and make it a park/pedestrian use only. Southbound traffic can't see safely to enter the intersection with all of the cars parked on 3rd street plaza.

Gillette/Campbell County should have been the front runner for the long-term veteran's home that Buffalo got. Shame on Gillette & Campbell County.

The city needs to do a better job with animal control.

Please improve the fishing lake!!!!

We need a strong vision for our future, focused on innovation, partnerships, and long term viability so our county and communities thrive during times of economic transformation.

No more buying road and bridge equipment for road building. They should only be doing maintenance.

Prioritize streets, water and sewer, storm drainage, public safety, and attractive public spaces. Fund most major utility capital costs through the 1% tax, with reasonable user-rate contributions. Continue targeted, accountable social-service funding.

The bike paths and walking paths along 4J & 59 are not wheelchair accessible & do not meet ADA accessibility requirements.

GURLEY OVERPASS

Gurley overpass bridge (faster replacement).

Thanks to the teams who always keep everything rolling down the "road" in keeping us safe and mobile! Keep the new Gurley Bridge as Gurley, please! Too much name changing - confusing! Mr. Enzi did his "job" as God told him to- we who knew him know that a bridge or building is not his style. Congress was 80% compromise & 20% agreement- as he said one time.

You need to save up for the bridge and sewer treatment plant.

*Gurley Overpass: Decide about "want vs. need". Think - is it a luxury and never ending money pit. Convenient, but should be demolished and replaced with a RR crossing. Much, much too much money to keep & maintain when it is not a necessity.

Gurley Overpass should include walk/bicycle passing both are used often!

The Gurley overpass should remain in place for light vehicles and a new truck rated overpass should be built at Butler Spaeth Road. It should also accommodate pedestrian and bike traffic.

An overpass should be built at Butler Spaeth Road for trucks and a bike/pedestrian path. Gurley should stay to be used by light vehicles.

Put all the funds on the Gurley Overpass.

Replace the Gurley Overpass. The city has talked about it for 20 years and nothing gets done. Every year they close it down so they can paint blue lines on it. Quit wasting our money!

Build a replacement overpass on Gurley.

Before we build an overpass we need a new time study on train blockage. Plenty of places to cross railroad. That switching the railroad does in town could be done east of town (in the used railyard.) Call me 307-660-2207.

1% should be used to build a new bridge. Social services should not be funded by this tax. I doubt any of my survey opinions will be used. Staff will make up numbers to suit their wants.

Take Gurley bridge down and replace it with a street. Stop wasting money on that bridge. Don't over design and don't build a new one that is too big for what we need. It was voted down for a reason.

Don't use 1% for Gurley overpass when voters said not to do it.

MAINTENANCE

The current gap in local funding seems to be upkeep on existing facilities. New things are nice but maintenance tends to get less attention because it isn't as "flashy".

Bicentennial path asphalt damaged- needs replaced or resurfaced.

City of Gillette- Do not spend 6 million dollars on a bathroom for Dalby. If the 1 cent sales tax does not get voted in, it is because of stupid spending like that. Common sense people. And communicate with the public honestly. You're public servants.

Funding for maintenance on city properties. The city can build but do not have the man power or funding to maintain. Our parks and medians are weed pits. The front of city hall and city warehouse are disgusting.

Maintain roads, water, sewer, public safety (fire, EMS, police) Forget the rest!

Beautification & irrigation- It has been a wonderful project but the lack of maintenance in some areas feels like a waste. The amount used for city street maintenance surprises me since cleaning up the scoria has been lacking. This makes the town appear dirty & I hear it a lot from those visiting from other places that this town doesn't look maintained. In July I shouldn't see scoria but it is still around.

Maintain what we have.

If you can't afford the upkeep in the future- don't do it.

Don't build if you can't maintain. If public says don't build the don't. I listed landscape as low but trees in need of pruning along bike paths. Sunflower park and pathway condition is so bad. Road dividers look terrible- a terrible idea in the first place. Be nice to have a short description on this sheet for the projects. Most don't want or can't research on the below website. Info on page 2 somewhat helpful.

Parking lot at Don's and Post Office.

Bike path on west 4J on high point just east of skyline drive has many tire and wheel eating cracks. Very hazardous as it could throw a person. I got blown into one by wind and blew a tire.

Potholes all over town need 100% attention! Someone in town & county needs to get on the stick & get them fixed properly. Quit filling them in! People need to start doing their job!

Need to maintain existing projects & not add new parks & recreation. Road repairs need better attention.

Sidewalks on Lakeway leading to Burma 4-way crossing are in need of replacement & safety measures.

Take care of the center meridian plants on Hwy 59 and 4J in front of the rec center. Replace what has been lost and maintain them. Or remove them and replace with river rock. But do something.

Businesses in Gillette have terrible roads/parking lots when it comes to road quality!

The roads and sidewalks in Remington Estate have barely been touched for over 18 years my sidewalk in front of my driveway has sunken two inches below the curb. The cracks in pavement have weeds growing in them. This subdivision has been neglected for repairs.

Much needs to be done to make our town look better. The public landscaping is very bad. Other than mowing, little attention is paid to it. Water isn't even turned on for planters. Town codes on junk vehicles and trash are not enforced, and I don't even want to talk about the parking lot in one of our most public areas- the "Mall".

I have lived in Bozeman, Rapid City, and Idaho Falls prior to Gillette. None have the quality of public amenities found in Gillette. I want to see more attention on maintenance of CAM-PLEX, Rec Center, Senior Center, Streets, and Programs to incentivize neighborhood beautification. It was a dreary search for a nice home in a mature neighborhood, as I saw no pride of ownership and no cohesiveness from one area to the next.

Boxelder sidewalk from Butler Spaeth to Energy Sports Complex is terrible. Please look at it. Its right by the busy road, & in terrible shape. Move it over a little & take care of it. More safe bike paths and crossings please!

Take care of our current buildings.

Please take care of what we already have.

Biking/walking path from lakeway & 4J road south & west needs improvements now.

I see a lot of unmaintained landscape and it pains me when more is added. Let's take care of what we have in all areas before adding something else.

I am concerned about the general maintenance of our city- water and sewer and streets need to garner the most money. These are mostly unseen but absolutely necessary for a wonderful city. I think the fire department needs to be a special district in the county. It's important but should not require the bulk of the 1% tax!

This funding should be for improvements not maintaining current infrastructure.

MENTAL HEALTH

Gillette Needs to do more to prevent, educate, have rehab for alcohol & drug abuse! Huge problem in Gillette. More support for mental health.

Our community needs more mental health care so people who do not have insurance can find care. We also need public transportation even if it is smaller buses and for limited hours. Not everyone can afford to maintain safe transportation and all the costs that go along, such as insurance, but need transportation to get to appointments, shopping, school and work.

I work with children and young adults in this area. Until we can provide them with evidence based practice and treatment, none of the other things mentioned matter.

Our mental health here is awful. Other than easier access to care, I'm not sure how to fix it, but we need more providers.

We need more mental health facilities in the county for people to get help.

Please fund mental health and support services to make stronger healthier community.

NON-PROFIT/SOCIAL SERVICES FUNDING

Quit funding social programs & Gillette Reproductive Health.

Pennies should be for Campbell County & cities. No monies to nonprofits! If they are important money should come from the private sector.

I think that continuing to initially not include Gillette Reproductive Health is ridiculous! To single out one very beneficial agency is BS. Thanks!

Social services are a critical public investment. Don't Let the fools fool you!

Social service agencies need to find ways to raise more money themselves. We have enough softball/baseball fields in Gillette.

Would like to continue contributions to Gillette Reproductive Health.

While social services are not the most important need, support for those entities is very important.

We need to continue to support our non-profits as much as possible. Non-profits save government millions of dollars every year by assisting with food, clothing, shelter, healthcare, mental health, education, parks & rec, the arts, business development, youth in crisis, victims of abuse, etc. Support and assist our non-profits as much as we can!

Do not use 1% for non-profits.

The people of Gillette should come first- the social services we provide are a direct benefit to our citizens.

I highly support the 1% sales tax. I also support Women's Reproductive Health. I'm appalled that our elected representatives would de-fund women's health before bringing it to the public.

Do not discriminate against one social service agency- leave Gillette Reproductive health in the mix and fund them!

Gillette does very well in most categories but social services need to be more available and a drug treatment center is highly needed.

Why does the county not want to fund Gillette Reproductive Health? They do not perform abortions. The county has been told this by credible research officials over & over. County commissioners need to not use the internet gossip as their source, or the preachers that use it.

I no longer support the 1% tax because of wastefully funding nonprofit organizations who should be privately funded - not with my taxes.

Special interests and non-profits should not get a cent of the tax dollars. They have the right & ability to fundraise but taxes should never go to special interests. Only infrastructure- law enforcement & fire protection.

I believe that nonprofits are an important part of what makes Gillette & Campbell County a place to live. We help provide when there is nowhere else to take care of emergencies.

Stop trying to defund Gillette Reproductive Health!

Continue to support the YES House!

Please continue to invest in our youth, our future! Mental health investment in social services needs to be a priority in CC.

Need more help for seniors and veterans, maybe 65 or older mobile home park with rent that matches their income level.

Spend the 1% money on senior citizens to help them pay for their ever-increasing electric, sewer, water and solid waste bills.

Should not give money to groups who can give cash bonuses to admin every year or who get more than enough donation from private citizens.

Women's Health and the resource center need to be funded. This cannot be a yearly issue because county commissioners are ill-informed.

Due to funding of the social service agencies, I am seriously considering voting no on 1%!

As more seniors (55+) and fewer children are in Gillette, shifting some funds to programs that assist that group would be appreciated and well-spent.

Overall, I understand the 1% was originally for road maintenance. I believe it needs to be updated to also realize that the optional 1% can effectively be used to improve quality of life improvements like non-profits that day-in day-out serve the citizens & various groups in need. I am for an up to 15% use of 1% funds to non-profits that show they are huge assets to the city, town & county.

The Edible Prairie Project bridges the food insecurity gap in Campbell County through sustainable food production, equitable distribution, and the cultivation of community connections. mission statement. Campbell County, Wright and Gillette need to support this nonprofit.

I am concerned about the lack of vision by some of the elected officials and the vague threats to cut social services support. There seems to be a "group" that seem to want to tear down so much of the goodwill.

No social services funding.

No funding to any social service agencies. Let them fundraise. The small amount you give them isn't a make or break situation. Fix our infrastructure. No giveaways.

There is too much of the 1% that goes to non-profit organizations that a high percent of the Gillette, Wright or County population has nothing to do with. If we are going to ask citizens to pay a 1% sales tax, it should go to projects that benefit everyone, not a small amount of people.

YES House is a joke- stop giving high funding!

Continue to fund Women's Health at the City and County. Everything else is going pretty smooth!

Think that taking care of people/teens/children who need a "hand up" should be important to citizens in our community especially the commissioners and council members especially if they believe the messages of their faith. Thanks.

In the past, I did NOT agree with 1% money being pulled from agencies because a Commissioner's personal views didn't align with how they viewed the agency. If that continues, I will not be voting in favor of the 1% tax in the future.

I also want to see our social services funded with the 1% tax. Stop singling out Gillette Reproductive Health every year. They do good work and prevent women from DYING from cervical cancer!

Even though the 1% is optional, it's still tax dollars that should be used to fund needs for county / city safety, infrastructure and improvements and services that improve our community. These tax dollars should not be given to private groups as donations or fund any type of welfare type programs. Those types of charitable organizations should be privately funded and many welfare programs are already funded through other tax dollars.

Social services should be considered a vital component of a vibrant community.

I think we need to vote down the 1% tax because we're funding all the non profits (they should fundraise) (Reproductive Center) good girls don't do that and lots more. Quit funding any sports activities.

PARKS

Rural parks have no restrooms for children! Rural schools should also have restrooms by playgrounds.

It would be nice for the filthy dog park to be bulldozed regularly to remove poop no one picks up. Plowed, bulldoze whatever means necessary. Then I might use it otherwise just throw it away. Sell the land.

Bicentennial is a joke! Clean bicentennial park, get people that actually work!

Our parks and trees and grass along 4J look sad. We need to take care of what we have.

Me and many others use the dog park all the time. It is very nice to have a safe fenced-in off leash area to run our dogs but it would be nice to have water & landscaping out there & lighting for safety reasons in the winter when it gets dark early.

Some of the parks are looking neglected.

I believe maintenance and maintaining parks is important (i.e. walking path at Sleepy Hollow is not complete. Hard for seniors to complete the loop).

An area in a park with handrails so seniors could walk.

County parks in subdivisions need replaced- Sundog subdivision.

If you can't put elm or cottonwood trees around the Dog Park for some shade, then add a water faucet in or near the Dog Park. You just ran a water line by there! Enough \$\$ has been spent on ALL this other crap - take a little to improve the Dog Park!

Parks, spend a fortune to upgrade Bicentennial Park fields, still not fire safety clear and scoreboards not operating (absolutely pathetic).

Gillette in my opinion focuses way too much on parks- Gillette could be a more beautiful if the city cared about maintenance in all areas of town. The city workers drive around enough to see things yet never do anything- wasted tax dollars.

I use Dalby Park (North of Fishing Lake) every Saturday from 9-11am. Most of the time there is very little usage in the rest of the park. Who are we maintaining this and dozens of other parks for?

POLICE/FIRE DEPARTMENT

Police should do more monitoring on the east end of Foothills Blvd. Excessive speeding & speeders, drivers constantly running stop signs, cars with too-loud exhaust systems. Police dept. could double their operating budget if all these awful motorists were issued citations!

More funding for fire and less waste on law enforcement. More funding for robust infrastructure.

Fire & police need to be a budgetary priority- just not 1%! 1% should be laser-focused on infrastructure, not operations. Form a special fire district county-wide.

Gillette police department is highly over-funded while the county sheriffs suffer.

Please separate fire & police. Police dept. needs to train officers in the law, they don't train their new officers very well and they don't take action no matter how quickly they respond, and majority of them have a bad attitude like they don't want to respond in the first place.

More police, fire department, EMS services.

Please separate law enforcement, police department, and sheriff's departments from the public safety part of the survey. I will always support the fire department and EMS workers, but I do NOT support law enforcement.

Enforce traffic laws & fine repeat offenders.

Fire Department don't need all chrome & glitter on county fire trucks. Look at the rest of the State's county trucks. Other counties buy our old trucks and run them several more years. Need diesel army trucks.

Not happy with speeding, noise!! Youth (teens) racing, loud exhaust, very loud music. We have went to city council but nothing much happens. Spoke with city police dispatch on this but it's rare that PD is able to take action,

Sheriff has more than they need. Also i see a lot of county trucks at a location, county hands watching a contractor work.

Sheriff's dept. is short staffed and lose people to the city all the time because city staff is paid more. We need to even this up. Don't forget what drives Campbell County & gives us a nice life with low taxes. ENERGY. We need to maintain the roads for these people!

Those items such as fire and law enforcement along with other statutory responsibilities should be paid out of general fund not the 1 %. The additional needs along with social services can then be paid out of 1%.

PUBLIC TRANSPORTATION

As the city and county grow with new developing business (large & small) looking forward to some sort of public transportation system is starting to seem necessary. Planning for this now seems prudent.

Public Transportation- fixed route buses.

I have needed a ride to the doctor but bus at senior center didn't have enough drivers. We need a public ride system.

Public transportation, even small buses for limited time is necessary to help all people in our community to get to work, to appointments, and to thrive. We should have has, at least, limited public transportation for a long time now.

RECYCLING

We need a place to recycle plastics, cardboard, & glass & paper.

It was very disappointing when Campbell County's recycling program disappeared seemingly overnight. I have recycled my entire life and it seems very short-sighted for all the County's waste to go to the landfill. Buffalo is a small community and yet they have a very robust recycling program. Campbell County should also!

More recycling options are greatly needed.

Bring back a waste recycle program,

Recycling should be a part of handling our trash, and the idea that selling recyclable goods will pay for the program is faulty. We should not be putting newspapers, batteries, and live-forever plastics into our land. It is not responsible stewardship.

Bring back the recycling program. My bin is full every week as it was only half full when this was active.

Why isn't some of this money used to re-open the recycle center? The lame excuse I heard from a councilman was the county closed it because the landfill was full. #1 That is where all that was going to the recycle center is going now #2 Obviously the landfill is NOT full. It was a convenience for residents.

Electronic recycling needs to be funded as well as waste recycling.

Bring back recycling center in the county. A landfill is a terrible thing to waste.

STREETS/ROADS

Please fix Saunders Boulevard. Should have been done when Thunder Basin High School remodel was completed.

Pay attention to roads that need repair: On Shoshone where they "fixed" the road- it was fine- by the stoplight its horrible!

Fix the streets in Gillette.

All items listed are important, it's very hard to prioritize. But maintaining our streets and roads ended up being a top priority for me.

Fix road between Gurley overpass & Little Powder River road.

Many of the downtown streets and alleys are torn up/ fixed repeatedly. First pavement, next year sewer etc. Plan so all of that takes place the first time the street is scheduled to be fixed. Coordinate all necessary departments so everything can be fixed at once. Don't close 2 or more streets to get over bridge at the same time.

Saunders blvd. is destroying resident's cars and taxpayer funded school buses. Need to be overlaid with black top.

Streets other than Kluver need attention more. Ex- Plum Creek Ave. Limecreek Ave.

It would be nice if county roads were graded more often or smoothed out better as just spraying them down for dust and nothing else isn't working as some of both sprayed and unsprayed roads are so rough your vehicle feels like its falling apart.

Please put more into our streets. This town is starting to look like 1970 when we move here. Its pitiful.

Overlay first 8 miles addon road from interstate to red rocks turn off.

We need to fix our roads.

Whoever thought that spruce needed rotomilling and re-paving needed to have their heads examined. They should have looked around the corner to Kluver and Aspen Lane. Spruce was in such good shape that the local hot rods raced there.

Street maintenance sucks, drainage maintenance/cleanup very poor. Utilize outside contracts for repairs as done many years ago (cheaper, better quality, local contractors exploit taxpayers) City council needs to listen and get off butts and quit with good ol' boy ways. Plowing sucks, order materials in advance to save money.

Roads are in terrible condition. Only going to get worse if don't start fixing them & maintaining them.

Would like to see less chemicals on the streets in the winter. Save moneys and wouldn't be as hard on our vehicles.

Every street, road, interstate needs repairs!

Tower Avenue pavement is all crack at the beginning of the road the solution was to fill in the cracks and holes with loose gravel it isn't working. Also why is there not a bike path to Collins Heights?

One important issue I would like to see better kept up are the street & highway (in town) lane lines & direction lines. Some are very faded & out of town drivers have a hard time knowing where to stop at a red light. I do too.

OTHER SUGGESTIONS, COMMENTS, AND CONCERNS

Gillette needs more golf courses available to all public adults and youth.

Due to the increasing popularity of pickleball as a multi-generational sport, some of us would love to see some courts closer to town (fishing lake) since school courts are locked to the public. It seems like other communities have more courts and they are well-used (very popular).

We need to get ahead of the people that are coming into the county and squatting on property in the subdivisions outside of city limits. They will take over if we don't do something soon! They are moving into lots that the owners are not even up to date on taxes.

Squatter's people living on land that they pay no property tax on, delinquent property taxes, water bills, electrical bills. More programs for our seniors. Some of these shouldn't be under the 1% tax they should already be figured in on the fiscal budget.

Sweep rocks off & sweep when/after you mow & leave grass & weeds on the path.

No 1% money should go to City of Gillette electrical reserve funds. Public safety should include the installation of an opticum system for ambulance and fire safety vehicles.

I wouldn't have enough knowledge concerning the finances for all the many things listed and only those County Commissioners & City Council & those working with the "books" could make the best decisions. Our Gillette system is good. Now, I have a suggestion. Trump changed Wyoming (& Gillette) "money income" probably forever. So I believe Gillette needs to attempt again at the National Finals Rodeo, which means build (cover) the arena. That would be humongous financial income forever. (Probably exceeding your 1%) I think John Bear is terrific, (I know him) but he is wrong on this. By the way, I, like so many others, always volunteer which is so critical.

Basics (roads, water, safety) first. If you have extra, then parks & bike paths.

The Electrical and Fiber system improvements were paid for by federal agencies. How about an indoor stadium like Casper? The only reason Casper gets all the statewide events is because of the stadium.

Can we partner with CCSD to get a stadium like we did for the Rec Center? We need to invest in the future-more facilities at CAM-PLEX. We need to do a better job of building out projects.

Please don't overlook Wright. We have a great community full of wonderful people. I would love to see our town improve and grow and house/welcome more people/businesses.

A bigger focus on infrastructure over social programs.

Lower utility bills and enforce laws so public parking lots are well maintained (less pot holes).

I feel the city and county have a responsibility to preserve our history through the support of our museum & it's programs. Without our history none of the things we have would be here.

At least published yearly a description/full text of the 1% sales tax document and a complete break down of all expenditures along with the restrictions on the 1% money usage. If the City council can decide that usage, the city council can ask the community for a one time adjustment to that wage for an item outside the expenditure restrictions.

We need to welcome new business into Gillette and Campbell County- without putting up so many roadblocks- companies leave. Educating the public- pros and cons helps a lot.

We would also like to put in more disc golf courses in parks all over town.

Keep working on infrastructure- Solid, long term improvements that improve and stay with the community for years! Handing out 1% money for this or that group- Just evaporates. Solid infrastructure is with us forever.

1-I would love to see a children's and youth discovery center in CC. A place built for all ages pre-K- 12+. An inside playground and walking track, engineering toys, learn about nature. A hands on museum of sorts, but add things for older students too- maker space, sports training, job training, music rooms, video/robotic production; 2-A community pre-school. Only for students the year before kindergarten to help them transition to full-time school. NOT a daycare. A school. Income doesn't matter the purpose is to work with guardians and students to ensure they are truly ready for kindergarten; 3-Expand or update our public library. Make it jaw-dropping, the place everyone wants to be.; 4-Anything to get families outside. Walking paths with distance signs. Easy access, trees- even add in learning signs or music instruments along the path.

Pass some rules that actually require people to get the junk and tree limbs old cars cleaned up or fine them. Their junk makes our property go down in value! Who wants to move to Gillette when it looks terrible. Get that old motel on the main highway tore down!

Baling the trash of the solid waste station on Dump Hill will cut down on the mess of blowing trash north of Gillette. We definitely need an ADA compliant overpass for people, bicycles and vehicles.

Please clean our streets better. And enforce parking violations.

Work on keeping the younger generations busy with positive programs to keep them out of trouble. Make this city the family friendly environment that we all love for our families.

Reduce tax- don't add more. Review and audit current line items on budget, manpower survey of positions. Does every employee earn every penny of their pay? Efficiency audit on employees and programs. Look for ways within current budget.

Align bridge at corner of southeast of Walmart.

Align bridge and streets at southeast corner of Walmart.

Emergency services should be highest priority.

Need to help veterans, senior citizens with utilities and groceries all year long not only during the winter months for utilities. Also need to follow up on ADA accountability with all businesses. Pools need to have easier access than the chairs which don't work for bigger people. Need to have walk in paths with solid handrails on both sides to hold onto. Also so people can use their wheelchairs to be accountable.

Public Safety; Road Maintenance, Improvement; Home town children facilities & programs

Long term planning to keep infrastructure repaired; Prudent use of money; AI centers are ridiculous, spending money on something that will be used to gather info on us & control us! Waste of energy and water too! Think of all aspects of nuclear before bringing it in. Clear parameters need to be set in stone. No nuclear waste disposed here!

Use low risk jail inmates to clean up our county roads, they look terrible. Around the dump is awful. They do yard work now around the jail & wash police cars why not use them to benefit the entire county.

Would like to see more effort to provide more pickleball facilities. A growing sport!

The library should be included as needing funding and social services for citizen's health needs funding.

I would like to see the interstate through the city mowed and cleaned for travelers' perceptions of our community and a sense of pride in our community. I know WYDOT responsibility, work with them. Mow the tall grass, clean up the garbage. Thank you.

I would love to see some new pickleball courts around town. We use the one a lot at Bicentennial and it kind of stinks; can't see the lines very well, the court floors have holes and it's always crowded. It is a very popular sport now probably will be for a long time. A lot of different ages can use them as well. Most towns this size already have nice courts.

Get rid of invasive birds- Doves, pigeons, starlings. They are out of control- creating a problem with their droppings and chasing away robins and other indigenous birds.

Please do not fund any predator management programs.

It is time to relocate Gillette Gun Club. The noise pollution from the club is getting obnoxiously loud and irritating to the citizens of the north side of town. I have never heard of the citizens approving an open-air gun club within their city. Open up the gun club area for development. Gillette is no longer a tiny town of 2000 people, Gillette is a growing and vibrant city. Time to relocate the gun club.

Get back to basics: public safety, roads and utilities.

Please return to using 1% appropriately and as intended.

County needs to start reinvesting dollars back into improvements and updates to needed assets. Cannot remember the last five things the county has built new. Landfill is a joke taking away recycling and filling up valuable space in the landfill.

Affordable Housing needs to be a priority in Campbell County.

Composting program is exceptional for the Gillette citizens to be able to take care of their yards to beautify for everyone's pleasure and also to help keep property values on the higher level, this also reduces water usage for the homeowner!

Start a capital project fund.

Why can't recycled waste water be used for the parks, like other communities?

Be Reasonably responsible. Don't just cut funding on things b/c it's the newest fad. Ensure that our communities needs are covered and the ppl are taken care of first then clean the plates of unneeded shit.

Use tax dollars for the good of all citizens, not "pet" projects. Do not give tax dollars to things we don't want here- such as nuclear. Take garbage service out of hands of city and into private business. Stop buying vehicles for every employee and police officer. Buy vehicles "per shift" rather than "per person". They should not be taken home.

You guys need to collect sales tax and plate reg on these vehicles being licensed out of state and don't tell me you won't have manpower you can have the dealer collect it. Like you do mail sales tax.

I have lived in Gillette since 1969 and we have come a long way! But we need some boundaries on this 1% tax. Every group, including non-profit organizations, sports groups, etc. have their hands out. There needs to be boundaries. What about a person from every ward in Campbell County make up a "boundary committee" for 1% tax?

Can you please find some money to try and quiet down this noise polluted town it is sad that bullies own the streets of Gillette and can force everyone to hear their loud noise pollution. Why can't we have a decent place to live?

Local politicians must stop bickering over distribution of funds and realize this money belongs to the taxpayers. This isn't their personal funds and is not there to support their personal beliefs and agendas.

Stop overspending- take care of what is in place- do not pay for health choices that are not necessary. Do not change to fit individual zoning requirements thus breaking your zoning laws to accommodate your drinking buddies or those who pay you under the tables. If you move subdivisions into the city, maintain them or leave them in the county. If not move them to county, they do a better job.

Our city spends far too much on glitter. Seems a perpetual habit to construct a new splash in the city hall or courthouse. We need to perform a better job of maintaining what we have without having to oblige the public to the standards of the Taj Mahal.

Generally pleased with Gov. services but in two areas. Gillette Reproductive Health should NOT BE FUNDED period. BWXT was poorly handled- the appearance of backroom deals- need more transparency.

The city of Gillette and Campbell County needs to stop wasting so much of our tax dollars! Our elected officials spend money like drunken sailors! They all act like tax and spend Democrats. I still remember when Amir Sancher was a commissioner and tried to get them to stop spending so much.

These funds should benefit everyone. Some people's bigoted, narrow-minded views should not be allowed to exclude any group from the benefit of these funds that all pay into.

Not field of dreams!

No data centers.

Why can't the kids summer camp be held at the Junior High or High Schools to allow the rec to stay open for others to use (i.e. pickleball). Or provide another indoor facility others can use while kids are at the rec center all summer long. Build a pickleball complex like Casper!

We need our elected officials to work together in a respectful, mutually cooperative way to continue to maintain, enhance, and improve our county and cities. Be an example in a positive, forward-thinking way. Have vision. Forge relationships state-wide. Campbell County's elected officials should be shining stars. Just saying no is not a strategy for success and for our future.

Cool it on the metal statues & decorative statues along the streets. You have plenty now. When you take it too far, it gets repulsive. People know instinctively that it is gratuitous pork to a favorite son. Think of a stone works outfit that puts ledges everywhere. God bless you all.

We have more than enough police. I would like to see maps at the entrance to subdivisions. Our community resources are seriously lacking.

City snow clearing & removal is a joke the county used to do a much better job. They need to take more time to clear out streets even if they need more trucks & equipment.

Taxes were always meant for keeping up infrastructure. High dollar projects should be voted on by the people. It's my understanding someone (or several) tried to stop the family who gives away Bibles. That is not the Gillette I grew up in! We need to rethink our priorities! Call me old fashioned, but we have left God out of the equation.

Stop wasting our money.

Do not give rec center any more money! They have plenty!

Equine therapy I do not understand. I do not like paying for things I do not use. Crosswalk for the rockpile museum- really a waste of money.

The 1% was voted in for road repair- that's what it should be used for and only that.

This county and city need to support your policies- such as weeds- vehicle- etc. on their properties. So many violations- if you have policies, enforce them. We have lost the 70s 80s beautification philosophy. Sad day for our community.

Gillette takes & uses too much money for things we don't need. You always forget Wright is in Campbell County and don't do anything to fix Wright's community. Gillette takes it all selfishly. It's not cool. So maybe instead of taxing those of us who work hard and barely make it by you use the money you get from "grants". Stop being selfish and asking for more money for shit that doesn't matter to a majority of the Campbell County community as most of us are barely surviving.

Also need a "Pack rat tax" in county and city: four flatbeds, three rusty chevies and a dodge are not lawn ornaments!

No raises for police officers. Continued upgrades for emergency services/firefighters/EMS.

No money for nuclear facility in Gillette area.

The apartment buildings at 407, 417, and 427 Oregon Ave. are dilapidated to the point that two of them are condemned. I think that the condemned apartment buildings should be torn down. They are all bringing our property values down and are unsafe.

This tax has been mis-used and wasted. I am not happy with its use.

I cannot say exactly where the money should go. I do not like choosing from a generalized, broad-ranged categories. It depends on where it is actually needed not where ambitious opinions want it to go. And what citizens would actually agree on (the majority) not to be told it is "good" for us, etc.! Oh, and only fix or replace what needs fixed or replaced, leave the non-broken stuff alone. Will save money by not

paying to tear out/down, to replace, and to have installed. I.E. parks, only replace broken equipment and upkeep; such a waste to tear out and replace not broken toys/equipment.

Campbell is gouging its residents with taxes already. You don't need to purchase new vehicles every year. The vehicles that are of any concern are law enforcement/fire/EMS. I'm a native of Wyoming and have seen the taxes increase and go higher for what? All because you keep inviting more and more people and coddle to their needs and whining. Balance your budget stay within your means.

As a Wyoming native of Sheridan County we have seen what destroying the best ranchland around Sheridan into yuppie land. The realtors, bankers, developers and commissioners are all sleeping in the same bed scratching each other's backs. Stop bringing in people to raise our taxes to help you raise taxes, crime, and levying this extra 1 cent tax. Live within your means. Stop raising money for yourselves and to satisfy the new people.

Illegals out of Wyoming and fraud protection in our government and the entities it supports.

Our regular taxes should be more than enough to cover routine maintenance repairs. Spend less on the "beautification" bullshit. There should be no extra tax to pay for most of these things. Hire someone that can budget and do basic addition and subtraction. You idiots steal enough from us already.

All city and county expenses should be under a budget just as families must do. This 1% tax is basically a slush fund for the government!

If you want to bankroll illegal invaders and the rest of the DEI misfits (i.e. healthcare, food, housing, and special literature at the county library), the greedy, grasping politicians will soon be asking for more than 1% because they can always justify taking from the haves to subsidize the free-shit crowd.

Stop raising utility prices.

36% of the 4% base state sales tax goes back to the county, city/local governments. Therefore we don't need the optional 1% sales tax, so let's go back to 4% sales tax in Campbell County. Besides both the City and County have a bad history of misappropriating funds. Government is at its best when it's given a microscopic budget. If I give government an inch they won't take a mile but they will instead take a light year which is about 5.88 trillion miles. We will do better with 4%. Permanently repeal the optional 1% sales tax in Campbell County.

Quit the wasteful spending. The beautification on Shoshone was/is ridiculous. Only a few benefitted from it. Taking care of the weeds growing in the cracks in sidewalks, curbs, gutter and streets would have benefitted the whole community and made Gillette look less trashy! Until the Gurley overpass is paid for and streets fixed not bandaided or chip sealed everything else needs to be put on hold. This is just my opinion! Not that it matters. I'm in the 90% of citizens that our opinion doesn't matter, not the 10% that are the Good Ole Boys and entitled wealthy that actually run the show in Gillette. I will be surprised if this passes this time!

You people should be ashamed of yourselves! If you want any of this it should come out of the private sector, period! Government should not have its hands in any of this, other than law enforcement. Read the constitution! You wonder why nobody can afford to live?

Please be responsible with our money.

Defund police.

Survey is bogus. Not really spending money the way we want it.

VOTE NO!

#1 schooling of our children; #2 Adequate food for those that need help; I didn't vote for this tax!

Don't need another 1% sale tax. Nothing ever gets done.

We pay way too much in tax, lets get rid of this one.

No Taxes!! After the fact that I am taxed on literally every penny I spend and even on some I don't, you have the audacity to ask for more under the guise of so-called improvements that my taxes are supposed to be going to- you can kiss my ass.

Stop the tax.

Quit taxing us into oblivion.

If you are having so much trouble deciding where to spend this money, stop taxing us!

Lower Taxes

Lower Taxes

90% of these are already funded with our tax levy so this is double taxation. No, no, no.

Not for 1% tax or any taxes.

No new Taxes-1% tax was voted down.

I vote against the 1% every time. You have consistently wasted money and ignored the survey results.

No taxes- live within your means.

Need to stop voting for 1%.

Stop the 1%

I have voted no on 1% tax. You guys waste the money or you use our money to build businesses & then charge us to use them. No on any more taxes!

No sales Tax!! Taxed to death!

Tired of the continual effort to try to find more ways of justifying more taxes.

Have never voted for 1%. CC should live within their means

The city and county spend our tax dollars. Quit pissing away my money. You get plenty from the rest of the taxes.

I want to spend my own money. No 1%.

We should eliminate the 1% tax! This has become a slush fund for commissioner pet projects.

Quit spending like a bunch of drunken sailors. The whole world DOES NOT revolve around sports, quit spending my tax \$ on sports related anything!

I will probably vote no since so much money is wasted by this government.

I will not vote for this 1% tax never have never will. I have to make ends meet so should the county, cities, towns.

Won't vote for the 1% tax, haven't seen any of it spent on county roads dust control, use it for the baling station in Gillette so we don't have to put up with Gillette garbage along Hwy 14-16 & hwy 59 out north to the dump.

Don't you think we are taxed enough? People can't afford to eat!

Actually, for the 1st time since penny power was a program, I am not voting for it. As I look around town and see the sad shape of our landscaping everywhere and the whole mess with the children's library, I'm not interested in giving any more of my money to anyone currently holding any office in my town. So I will vote no to renew it when the time comes.

I never voted for the 1% sales tax nor will I. Once a tax is in place, it never goes away! There is one of your signs hung on the fence where I leave my subdivision: "Thank you" for supporting the 1% tax- no where to be seen in my subdivision. I have a higher property valuation (tax) than 90% of Gillette residents and yet the sidewalks & curb & gutter are terrible. We have a \$350,000+ tactile assault vehicle, not even fully outfitted. How often does it get used? I know it has to go to Sheridan. You must think we have Chicago slums? It sure looks like it if you drive up Oregon and look at the boarded-up 6-plexes. Do we really need every road/street right of way to look green & "pretty" full of trees? This is a dry climate, realize it and live with it. I could go on but my vote doesn't count. Yes, the tax does some (many) good thing for our community but I would like it to fail more so you all realize what a gift it is, and maybe you would be more responsible in your spending! Brook Bahnson

I have no intention of voting for 1%! Need new commissioners & mayor & council! Tired of these "do not support" the citizens of our community from these people.

SURVEY COMMENTS/SUGGESTIONS

H. (on County Survey) should be different items. Social Services and Animal Management are wildly different. E & F should be combined.

Predatory animal management and social service agencies shouldn't be lumped together. Social services- medium to high priority. Predatory animal management- medium to low priority.

Social Service Agencies & Conservation District/predatory animal management should not be combined. Social Service agencies- Do NOT Fund, Conservation district- Low priority.

Why are Social Service Agencies and Conservation District/predatory animal management listed as one line? Who drew this up, put different agencies on one line? This is not a true predictor- due to what you did by putting multiple agencies together.

Don't lump in predatory animal management with social services! That is ridiculous. We spend more money on homeless animals than homeless humans.

I DO NOT support predatory animal management! I DO NOT understand why social service agencies and predatory animal management are on the same subject line: They should have their own separate subject line. Bad survey design!

Social services should not be lumped in with conservation district and predatory animal management.

Did not like combining the Social Service Agencies with the Conservation District/Predatory Animal Management. It made it hard to answer. Thanks for asking the citizens.

My gender & my education has nothing to do with how I want you to allocate my tax dollars. The only "box" you need to put us in is "Are you a taxpayer?" Thanx

I notice that you broke down the finance for Gillette, but not for Wright, why? Why didn't you give the total amount taken in for the stated time period, then put the amounts of disbursement side-by-side so we can make an honest comparison to see if Wright is genuinely receiving the "50%" as stated?!

Next year, can you separate fire & police?

Use 1% as intended. This survey is poorly written and seems intended to guide respondents answers to support unwise past expenditures. Do better!

Combining social service agency with predatory animal control is tricky. I have no problem funding protection from predatory animals but am very much against social service funding as they seem to create a different sort of predatory animal.

COMPLIMENTS

I'm very much in favor of our 1% tax. Priorities should be necessities first & then improvements. I fully appreciate CAM-PLEX & all that it offers to us all.

People from other places wish they had what we have here in Campbell County. The reason we have much of this is because of our 1% optional sales tax. We need to keep reminding people how important this is.

Public safety and programs benefitting troubled youth are high priorities. Overall, though, I feel that Gillette/Campbell County are very well-managed and show great vision for the well-being of our citizens. I'm 100% in favor of the 1%, because I like being able to actually see where my tax dollars go.

It would be helpful to give some real-world examples of projects funded by the tax. I am in full support of it. Also, things like "District Support Grants" for roads & water- no idea what that is. Thanks!

I like the fact that the revenue stays in Campbell County, also tourists contribute.

Great city

Thanks for keeping Campbell County "the way it is!"

Thank you

Gillette is a great place to live. I think all departments try to do their best. I appreciate everyone's efforts. God bless!

Keep up the good work, County!

I am a lifetime resident of 92 years. As a child during the drought of the 30's which were very bad, it looks like another similar drought is in progress with worse to come. The city and county must recognize and prepare for extended drought, after all, the Madison depends on the Big Horn Mountains which means snowfall. Doesn't anyone realize the glaciers are either gone or shrinking because of climate change? But thank you for the safety and planning to keep our electric needs handled to both the City and County.

Overall, keep up the great work! Thank you! :)

I am generally in favor of the 1%. With that said, I do not believe it should be used where projects are already required by the city. I believe these should be used for extra benefits of people living in Gillette. Thank you.

This has been a wonderful program for our area and I will continue to support it.

I fully support the 1% Optional Tax.

Prior work has made Gillette a very pleasant place to live - continue on.

1% Sales Tax is important and does a lot of good in Gillette.

Penny tax for the win!

We hope the 1% tax never gets defeated at the polls. Everyone pays- no one misses it, and its done so much for the community.

1% is a great tax!

I believe the 1% tax has helped with a lot of special projects. It has been good for all of Campbell Co.

I am a Campbell County native and have seen the huge impact this funding has had on our communities.

It is very important to our community to keep the optional 1% sales tax. Gillette, Wright & Campbell County deserve input from residents. When public officials use personal beliefs rather than community beliefs, trust is lost. We have long supported this optional sales tax because of the wonderful benefits it has provided.

The 1% tax is vital to Campbell County.

The 1% has been critical to our road district maintenance & upkeep- Very grateful. Thank you county.

I did this online also but don't think it went through. Good job Gillette!

Lived in Gillette 73 years.

I'm proud of our city, our county, and our state. I'm glad I moved here in 1970!

I think we live in one of the best cities/ county of the state, and think our money has been well spent.

Gillette always does well and provides nice things to local citizens more than any other Wyoming town!

As I look around our community, I feel so lucky we had people who valued providing a quality place to live and thrive. I happily pay 1% because I see the wonderful things it has provided for my family.

The 1% sales tax has generated funds to support and establish programs and monies in the community that would otherwise not be able to be provided. I appreciate this usage of the 1% tax and fully support it!

We are very supportive of the 1% penny power tax and all it provides for the community.

Thank you for the survey!

I support using 1% money for projects and activities in addition to usual tax supported government responsibilities. So many of the items seem to be areas that should be covered by regular budget expense, such as county fire and sheriff, facilities maintenance. Items that have been diminished because the legislature has cut community income and not replaced it with state funds. BAH HUMBUG

I love our community as compared to other Wyoming towns. Money spent on keeping Gillette clean and beautiful is worth the money spent from this tax.

I am more than willing to continue paying the penny power tax to keep up the quality of life it has brought our community.

The 1% has been a critical source of funds for many years for the betterment of our community and for a truly great quality of life. It is well worth the cost. Without this tax, I fear our community will suffer as a result.

I appreciate the time you are taking to gather input from the community. It is nice to know we can have an effect on things by doing something other than vote on people. Sam

I feel the county and both cities have done an excellent job with the 1% tax.

Thank you!

Thank you for asking our opinions. :)

Gillette has done a good job on parks and areas to be outside. There needs to be an effort to make more options for people to do outside, dirt bike park, expansion of Red Rocks Trails. Just having jobs is not enough to make people stay. They need a community.

1% is a great program!

The city is doing a good job.

Money is well used, keep up the good work.

We have always supported the Penny Tax. It is a tax we choose to elect to do and pay because it helps all in our communities. It has made a huge difference one cent at a time.

The new ballparks look good. The College looks great. Rec Center + TBHS all have great looking grounds. Whoever is in charge of the flower boxes and the grass mowing on Enzi needs to improve to look great too.

A great place to live. Rec center is great. Many other amenities better than you would expect for a city of 30,000. Wise use of funds in the past have paid off. Keep it up! Invest for the future!

We need the 1% sales tax.

I appreciate the thoughtful distribution of the 1% funds. You are doing a great job of being wise and equitable stewards of the monies collected. Thank you!

Thanks for all you do! :)

Downtown, CAM-PLEX park and 4J holiday lights are wonderful.

The 1% tax is critical to our community, please do everything you can to push it through!

I have living in Gillette for 30 years, when it was a town before it became a city- people who think the roads are bad now should have seen them back then. The roads are in great shape now by comparison. Although I don't get out much anymore I have always been proud to call Gillette my home!

I very much favor the 1% tax and hope that folks will continue to support it. It has been very beneficial in the past.

I feel the 1% has been spent in the needed areas. I would like to spend this money in the need to have areas and let other sources fund the wants. Take the 1% logo out of a circle as it resembles the city logo. Nobody will vote for the city?

I appreciate the drainage project very much as a resident of Remington Estates. Will vote yes on Penny Power every time!

Thank you for all you do!

I hope our citizens vote for this.

1% is so vital to our community- I will support it!

Gillette is an amazing place to live. A lot of improvements have already been made to improve our community- need to continue to move forward.

I love this community and the people here. It was and is a great place to live and raise a family. We had a successful business here for 30 years plus, thanks to all the residents who supported us.

Am in support of this tax for our county and communities.

Thank you for spending the 1% to make Gillette a wonderful place to live!

Make Gillette bike friendly. Please consider completing bike path on East Warlow & Garner Lake Rd to connect the northern side & southern side. Thank you.

Thank you for the snow removal in the city and county streets and walking paths!

100% for the 1% sales tax.

Appreciate the opportunity for giving my input; SUPER believer in the power of pennies!

Few decisions are more important for voters than properly funding our county via the optional 1% and a strong property tax for budget and for savings.

The penny has been very important to the city of Gillette!

Make the 1% tax permanent! Make the 1% tax permanent! Make the 1% tax permanent!

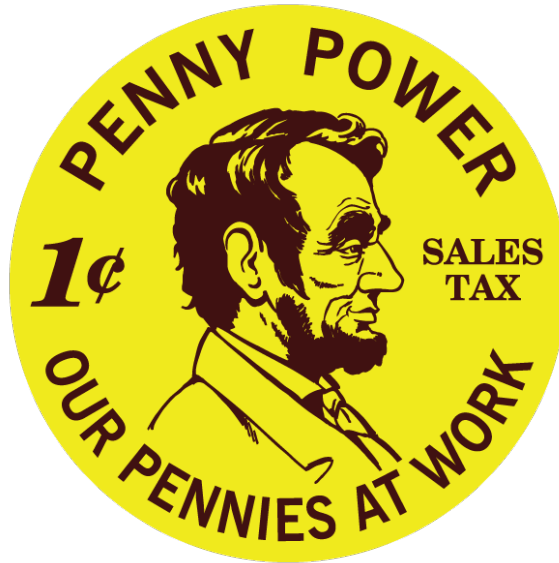

Please make the optional 1% tax permanent. People don't realize how much good it does for our community. Do a better job of highlighting the positive things this supports.

Thank you for all the info and effort to get the public input, and your transparency. You can't please everyone, but you can ask them for their opinions!

For the most part I'm happy with how the 1% tax is currently allocated. It's such an important funding source for our community and we're lucky to not only get to vote on whether or not we want the tax every 4 years (although I do wish it were permanent), but we also get a say in how the funds collected are spent, and that's pretty awesome!

I love living in Gillette! I use the bike trails year round. Thank you for plowing them in the winter! Even though I know it costs money services like plowing, council of community shelter and soup kitchen, fire, emergency services, library, and parks all make our life here in Gillette quite lovely. I am willing to pay reasonable taxes to continue these services (and more). The quality of life here is great!

Thank you.
