Maj. Toni C. Brown, CAP
Campbell County Coordinator
Wreaths Across America
PO Box 704
Gillette, Wyoming 82717

Dear Major Brown, Veterans, and all those participating in National Wreaths Across America Day,

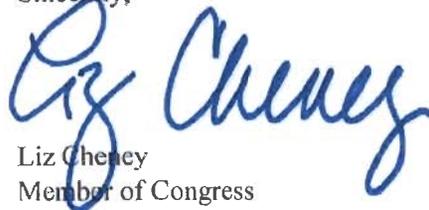

Thank you for your commitment to remembering and honoring our veterans. I am grateful to be participating in the Casper event this morning at the Oregon Trail Veterans' Cemetery, where my grandparents are buried. The lives and sacrifices of our veterans must never be forgotten.

Every year, on National Wreaths Across America Day, residents of 1,200 communities throughout the country come together to celebrate the lives of local veterans and teach our youth about their bravery and the importance of defending freedom. Laying one of these wreaths on each veteran's grave while thanking them for their service is a sacred sign of respect for their lives, for their character, and for all they have sacrificed and contributed to our great nation.

We must always remember that the freedoms we enjoy are defended by those who serve in the U.S. military. America's armed forces have guaranteed our freedom, as well as the freedom and security of millions of others around the world. I want to express my deep gratitude and unwavering admiration for our veterans, for those currently serving, and for the families of these brave Americans. Because of your sacrifice, resolve, and dedication, our nation remains secure and free.

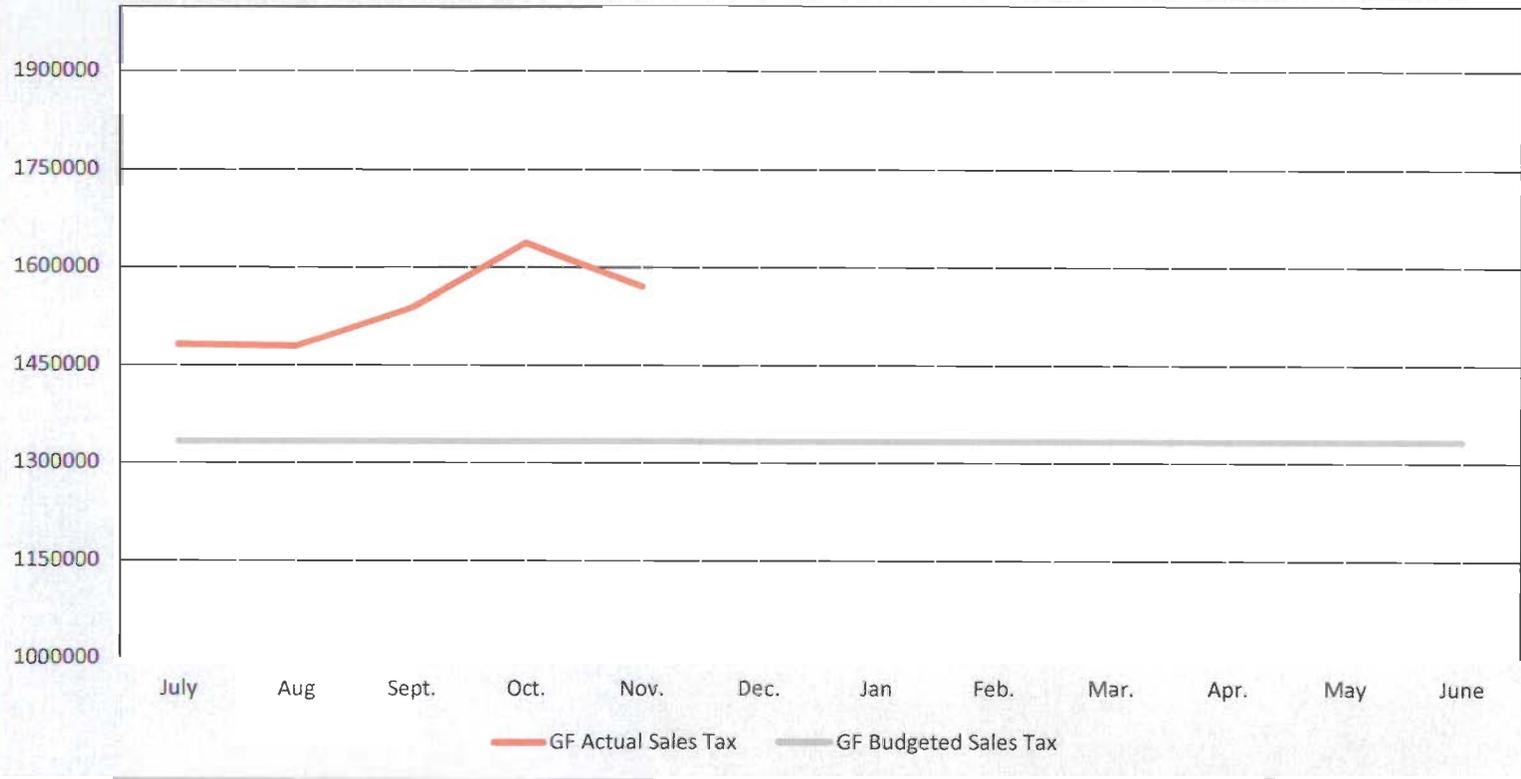

Thank you again for helping to ensure our veterans get the respect we owe them, especially during the Christmas season. God bless you, God bless Wyoming, and God bless the United States of America.

Sincerely,

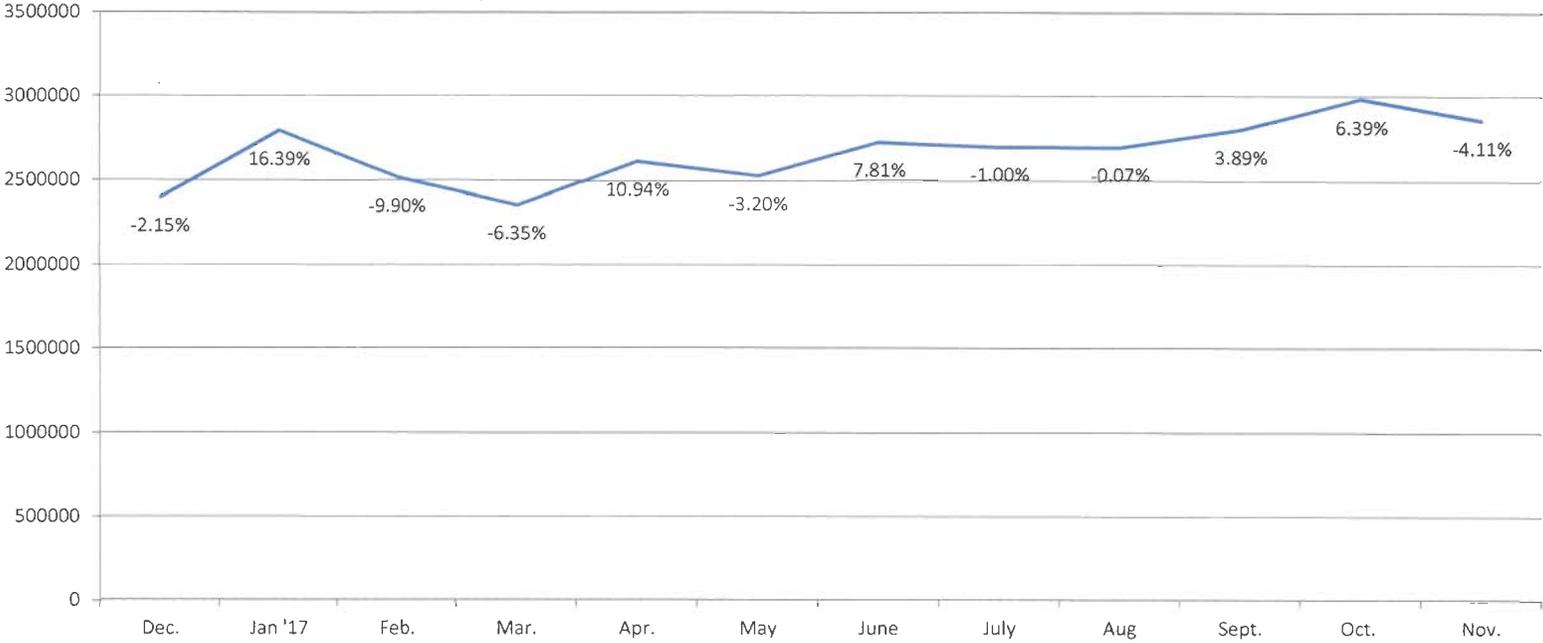

Liz Cheney
Member of Congress

Snow Event Report #5

Event Start Date: 12/16/2017 Event Start Time: 8:30 a.m.
Event End Date: 12/17/2017 Event End Time: 1:30 p.m.
Duration of Event: 29 Hours Streets First Responder: Dale Harter

Storm Event Overview:

The Streets day crew was called out by the Police Department at 8:30 a.m. on 12/16/17 due to snowfall causing slick areas on some streets.

The day crew began checking known trouble area. As the snowfall became heavier, the day crew had to shift their focus to priority streets.

About 1:10 p.m. the snowfall began to let up and the snow began to melt to the point that the streets were only wet, the day crew shut down operations and went home.

At 3:30 p.m. on 12/16/2017 snow began to fall again and day crew returned to duty and began plowing the new fallen snow. Temperatures also began to drop causing wet areas to freeze, roads quickly became slick. Day crew plowed snow and applied material to priority and trouble area streets until shift change at 7:00 p.m.

The night crew took over and focused on priority streets and trouble areas throughout the night as snowfall continued until about 3:00 a.m. Night crew was only able to keep priority streets and trouble areas clear and treated due to the steady snowfall and icy conditions.

Day crew took over at 7:00 a.m. on 12/17/17 and began addressing subdivision streets citywide.

With clear skies and calm conditions day crew was able to finish subdivisions by 1:30 and Event Five was ended.

FOR IMMEDIATE RELEASE

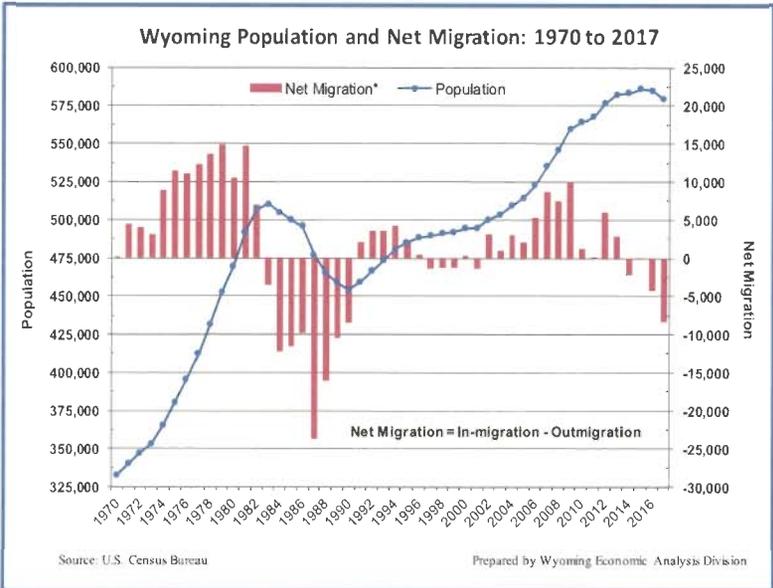

Wednesday, December 20, 2017
Contact: Dr. Wenlin Liu, Chief Economist

WYOMING POPULATION DECLINED AGAIN

CHEYENNE -- Wyoming’s total resident population contracted to 579,315 in July 2017, according to estimates just released by the U.S. Census Bureau. The annual decrease from July 2016 was 5,595 persons, or 1.0 percent, the largest decline since 1989. There are two components for population change. The natural increase (7,513 births less 4,847 deaths) was 2,666, but the estimated net migration (in-migration less outmigration) was about -8,300, which means that approximately 8,300 more persons left Wyoming than moved into the State between July 2016 and July 2017. In contrast, the net migration was about -4,000 between July 2015 and July 2016.

Nationally, the population was an estimated 325.7 million in 2017, an increase of 0.7 percent from the previous year. Idaho’s 2.2 percent rate led the nation, followed by Nevada (2.0%), Utah (1.9%), and Washington (1.7%). Wyoming’s decline rate was the steepest in the nation, and seven other states lost population, including West Virginia (-0.7%), Illinois (-0.3%), Alaska (-0.2%), and Hawaii (-0.1%) during the 12-month period.

“People tend to move to areas where the economy is vibrant, which is particularly true for Wyoming,” said Dr. Wenlin Liu, Chief Economist with the Economic Analysis Division. Change in employment always tends to drive and lead the change in migration in the State.

In other words, migration normally follows employment changes. The contraction of Wyoming’s employment started in early 2015. Though the mining industry (including oil & gas extraction) in the state gained some ground and added over 1,000 jobs between mid-2016 and mid-2017 due to price stabilization and increases of drilling, nearly all other sectors of the economy still experienced employment decreases, led by construction and government. As a result, the overall payroll employment shrunk by 3,600 or -1.3 percent, the worst performance in the country during the period. Continued employment decline, consequently, contributed to the increase in outmigration. In addition, the labor market nationwide, particularly in neighboring states such as Colorado (the lowest unemployment rate in June 2017 in the U.S.), Utah (the 2nd fastest job growth rate in June 2017), and Idaho (labor market ranked in the top 10), continued to show strong expansion, which attracted a number of Wyoming workers and residents during the period.

However, the unemployment rate in Wyoming declined significantly since the summer of 2016, and the current level is similar to the U.S. average. Additionally, business layoffs are very low, and both average working hours and hourly earnings in the private industries are higher than last year. “Wyoming’s current labor market environment should provide encouragement for people who are looking for jobs within the state,” Liu commented.

The complete figures and methodology are available at U.S. Census Bureau’s website at <http://www.census.gov/>

¹ Total population change includes a residual. This residual represents the change in population that cannot be attributed to any specific demographic component. See Population Estimates Terms and Definitions at <http://www.census.gov/programs-surveys/popest/about/glossary.html>.

² Net international migration for the United States includes the international migration of both native and foreign-born populations. Specifically, it includes: (a) the net international migration of the foreign born, (b) the net migration between the United States and Puerto Rico, (c) the net migration of natives to and from the United States, and (d) the net movement of the Armed Forces population between the United States and overseas. Net international migration for Puerto Rico includes the migration of native and foreign-born populations between the United States and Puerto Rico.

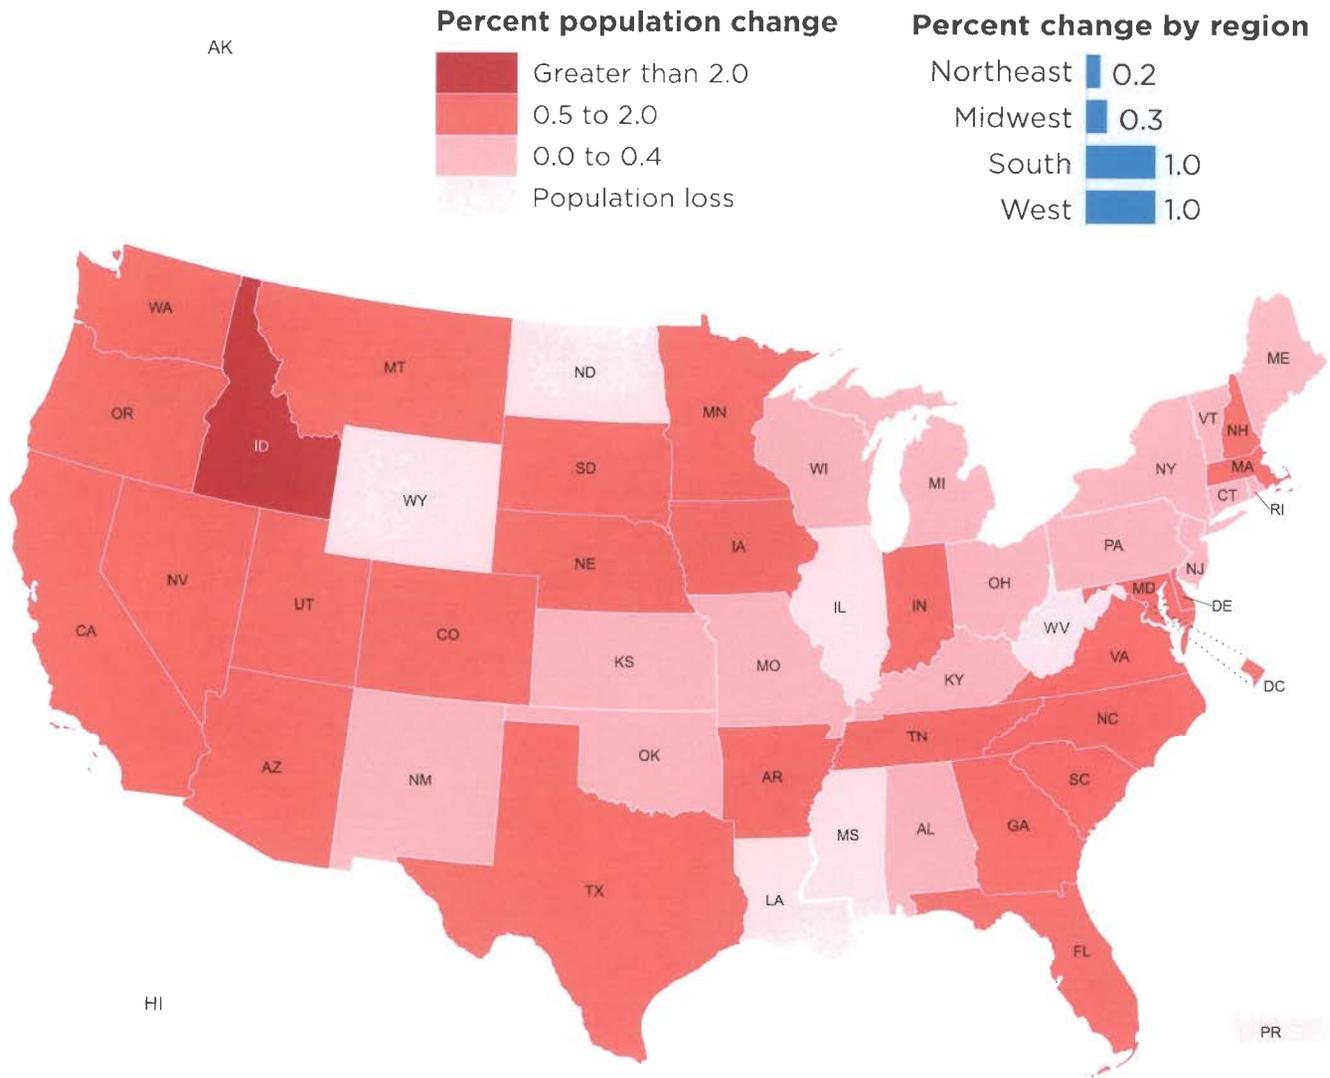

Note: The estimates are based on the 2010 Census and reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions. See Geographic Terms and Definitions at <http://www.census.gov/programs-surveys/popest/guidance-geographies/terms-and-definitions.html> for a list of the states that are included in each region. All geographic boundaries for the 2017 population estimates series except statistical area delineations are as of January 1, 2017. For population estimates methodology statements, see <http://www.census.gov/programs-surveys/popest/technical-documentation/methodology.html>.
