ECONOMIC ANALYSIS DIVISION

FOR IMMEDIATE RELEASE

October 16, 2018

Contact: Amy Bittner, Senior Economist

Wyoming Cost of Living Index for the Second Quarter of 2018

CHEYENNE – The State of Wyoming, Economic Analysis Division reported that Wyoming experienced a 3.3 percent increase in annual (**All Items**) inflation from the second quarter of 2017 to the second quarter of 2018. Inflation is measured over six consumer categories in the Wyoming Cost of Living Index (WCLI). Statewide annual inflation rates by consumer category for the second quarter of 2018: Transportation (8.7%), Apparel (6.6%), Medical (3.6%), Housing (2.1%), Food (2.1%), and Recreation & Personal Care (-0.3%). Higher gasoline prices contributed to the year-over-year Transportation inflation. Consumers saw higher prices at the pump due to increased oil prices. During this same time, the U.S. Consumer Price Index (U.S. CPI) reported inflation of 2.9 percent (June 2017 to June 2018).

Inflation figures are also available for five regions in the State. For the second quarter of 2018, the Northeast region recorded the highest annual increase (4.1%) followed by the Central (3.6%), Southeast (3.2%), Northwest (3.2%), and Southwest (1.8%). Inflation measures year-over-year prices changes. The inflation figures compare the second quarter of 2018 to the second quarter of 2017. An economic downturn in Wyoming began in early 2015. At this time, the State experienced heavy employment losses and reductions in revenue due to decreased mineral extraction activities. Wyoming lost one percent of its population from July 1, 2016 to July 1, 2017. It was not until the end of 2016 that things started to pick up in the State's mining industry (including oil and gas extraction). Wyoming's total employment in the second quarter of 2018 increased by 1.4 percent from one year earlier. This growth was the largest year-over-year increase since the fourth quarter of 2014.

The Wyoming Cost of Living Index (WCLI) consists of two parts, **Inflation**, which measures year-over-year change (annual) and the **Comparative Cost of Living Index** which compares each county's cost of living in one period (not over time) to the statewide average. The inflation figures for the second quarter of 2018 represent the percent change in the price level of a standard basket of selected consumer items priced in the second quarter of 2018, compared with the price level of the same goods recorded one year ago (second quarter of 2017). The Comparative Cost of Living Index represents each county's price level compared to the statewide average (100) during a single time period, in this case, the second quarter of 2018.

For the second quarter of 2018, the Comparative Cost of Living Index ranked Teton (158) as the county with the highest **All Items** value, which indicates that the cost of living in Teton County

regions of the State. A map of the twenty-eight cities where price data were collected is on page 5.

Communities across the State are included in the WCLI based on the following criteria: First, the largest city or town in each county is priced; additionally, prices are collected in any city or town with populations greater than 5,000 or in cases of a city or town having at least 80 percent of a county's largest community's population. In counties where only one community was priced, those prices were used to represent the entire county. In counties where two communities were surveyed, a population-weighted average of the prices for the two communities was used for the entire county. In addition, starting with the second quarter of 2003 WCLI report, Afton, in Lincoln County, was added as a sampling point through legislative action in 2003. Kemmerer is still priced. Afton and Kemmerer report separate Comparative Cost of Living Index numbers. Beginning with the second quarter of 2004, Afton, has been included in the inflation calculations.

The 140 consumer items surveyed were aggregated into six categories, which were then weighted using item weights from the U.S. Bureau of Labor Statistics (BLS), Consumer Price Index (CPI-U), reflective of their overall importance in the average consumer's budget. These categories, and their respective weight components, include Housing (48.1%), Transportation (16.5%), Food (13.4%), Recreation & Personal Care (9.5%), Medical (8.7%), and Apparel (3.8%).

The data are weighted by population to more accurately represent the price changes experienced by the majority of consumers in Wyoming, which showed an overall, statewide inflation rate of 3.3 percent in the second quarter of 2018. Nationally, the inflation rate from June 2017 to June 2018 was 2.9 percent (CPI-U), as reported by the BLS in the Consumer Price Index.

The Division wishes to extend its sincere appreciation to all of the businesses and individuals whose cooperation and assistance made this survey possible.

Event Start Date: 10/13/18 Event Start Time: 12:15 p.m.
Event End Date: 10/14/18 Event End Time: 7:00 a.m.
Duration of Event: 19 hours 15 min Streets First Responder: Leonard Taylor

Storm Event Overview:

At 11:00 a.m. on 10/13/2018 the on-call Streets Operator was called in by PD to apply material to slick bridges. At 12:15 p.m. the on-call Streets Operator notified the day crew leader that the snow was increasing and more plows were needed. The day crew leader then called in two other people to help. Around 4:30 p.m. the rest of the day crew was called in to help with ice and snow issues that were increasing as temperatures fell.

At 7:00 p.m. the night crew came in, snow was falling and ice was continuing to develop in many areas. Night crew initially responded to calls from PD and applied material to those trouble spots. Once those areas were under control, night crew continued to plow and apply material to the rest of their priorities. The snow let up around 11:00 p.m. allowing night crew to get total control of their priority routes and some subdivision trouble spots. At 2:00 a.m. night crew finished priorities and focused plowing efforts on subdivisions. The night crew finished subdivisions at 7:00 a.m., and the snow event was ended.

Dear *Folks at The City of Gillette;*

We appreciate your support of the eighth annual Memory of the 8. Thank you for helping us keep the memory of the 8 alive and continue to raise awareness about the dangers of driving under the influence.

This year our event took place on a beautiful, warm Sunday afternoon. We had an amazing turnout with 233 participants registered for the Kids' Fun Run, 5K Walk/Run and 8-Mile Run. Along with many family, friends, and community members, we had a great turnout from local high school and junior high cross-country runners and their coaches. Participants also came from the surrounding area to help us remember Morgan and his teammates. They ranged in age from 4 to 78. We estimate attendance at about 300, gathering to remember and honor the 8 Wyoming Cross-Country runners.

Twenty-two local businesses provided door prizes. We again enjoyed the wonderful performance of the Energy City Voices and the barbecue that was provided and served by First Interstate Bank. If you'd like to see highlights of the event go to our Facebook page: Razor City Runners, INC/Memory of the 8.

We have had many positive comments about this year's event and look forward to next year's Memory of the 8, to be held on Monday, September 16, 2019.

Our event continues to grow and we couldn't do it without our sponsors. We hope to have your support again next year for Memory of the 8 - 2019, as we continue our remembrance of the Wyoming 8.

Sincerely,
