# EVENT HIGHLIGHTS

In addition to continuing initiatives introduced in 2018, like "Lessons From Leaders" and the "Mega Mixer," 2019 saw the revamp of the Business & Commerce committee, as "L.E.A.D.": Learn, Expand, Advance, and Develop. The committee launched "coffee chats" with the Chamber, to offer free informal training to our membership and the public, every other month. These "Chat with the Chamber" events provide an opportunity for networking, a look at local free or low-cost resources for business owners, and a way to provide "Chamber 101" training, all at the same time.

We also moved our "Thanks Give-away" promotion to the spring, so that it wouldn't overlap with "Shop Down to Christmas" over the winter holidays. The third "Shop Down to Christmas" event brought in a record \$73,840 in receipts from local businesses.

The Northeast Wyoming Contractors Association (NEWCA) added an annual meeting to its regular schedule, to provide transparency to NEWCA members, and a way to focus NEWCA's yearly efforts in the community. They elected a new board, formed a partnership with Habitat for Humanity, and started hosting bus tours of local construction projects for educators, to try and close the skills gap. They are also in the process of improving their "Career Day" event, and expanding it to both high schools.

## Snow Event Report # 23

**Subject:** Wow! National coverage of Gillette sparkler event

Dear Fellow Board Members,

I just wanted to share some news on amazing press national press coverage related to the CVB and Gillette Main Street. I was reading an article in the Washington (DC) Times this morning and it linked me to the article they published about the sparkler record attempt in Gillette, Wyoming, and a quick search found that dozens of other newspapers had published it as well.

Gillette News Record shared their article with the AP news wire service, which allows news organizations to publish the story, with many organizations publishing in their National News section or Offbeat/Weird News.

The Gillette News Record article was picked up by almost all of the major Wyoming news outlets, but also newspapers and TV and radio station websites across the country have published the story from cities big and small. A quick Google search finds more than 100 times that the story was published. It's highly unusual to see a "local" story picked up by that many news outlets in major U.S. cities including Washington Times, USA Today, Miami Times, Sacramento Bee, Fort Worth Star-Telegram. There's a lot of engagement on the story, so it's putting a lot of great press on Gillette to communities throughout the U.S. Many TV and radio stations have shared the article on their website, and often those offbeat stories get shared on the air.

Please thank our team at the Gillette News Record for sharing this story with AP news wire. It's great to see Gillette getting so much press on this event.

Great work to our CVB and Gillette Main Street team leaders who made this happen!

I had to turn off "Hide Duplicate Searches" on Google because it's the same article in so many places. I took a few screenshots because I've never seen a local story get picked up by so many news organizations:
