

June 3, 2011

Dear District or Water Association Board Member,

Please see the attached information regarding the need for supplemental information for grant applications to the State of Wyoming for regional water extension funding. The State has requested that we prioritize the funding requests for extension projects and this information will be critical in our decision making process. We have enclosed the following:

- District Questionnaire to be used for prioritization of regional extension funding requests
- Example Resolution of Support to be signed by your Board (required by WWDC)
- A copy of the WWDC application for Level II Study funding. We encourage Districts to apply for this study if you have known deficiencies in your current distribution system.

If you have any questions regarding this information, please contact the following:

City of Gillette: Mike Cole, P.E., Project Manager. (307) 686-5276 [mikec@ci.gillette.wy.us](mailto:mikec@ci.gillette.wy.us)

Campbell County: Kevin King, P.E., Public Works Director. (307) 685-8061 [kck08@ccgov.net](mailto:kck08@ccgov.net)

We will be hosting a public meeting to assist in the preparation of Level II applications and the District Questionnaires sometime in late June. Information regarding the date and location will be sent to you in the next few weeks. We plan to have staff member(s) from the WWDC, the City and the County at the meeting to answer specific questions on the Level II and III grant applications.

Finally, we will have electronic PDF versions of the District Questionnaire and Resolution available on the City website (<http://www.ci.gillette.wy.us/>) and the County website (<http://www.ccgov.net/>). These forms can be filled out electronically and then printed.

We appreciate your diligence in filling out and returning the requested information. Your assistance will allow us to prioritize and move forward in garnering grant funding for this critical project.

Sincerely,

Kevin C. King, P.E.  
Public Works Director  
Campbell County
