Description	Qty	Rate	Total
ONE WAY FLOW ALTITUDE VALVES WITH DELAYED OPENING: 6" Cla-Val 210G-03 BYKC Altitude Valve (one way flow with adjustable delayed opening of valve on lowering reservoir level). Ductile iron body, bronze trim, class 150 flanged ends, globe style body. Pilot system: copper tubing, brass fittings. Includes pilot system isolation valves (B), y-strainer in pilot system of valve (Y), epoxy coating inside & out (KC), CDS6A altitude pilot valve (adjustment range to be determined), X105LCW Single Limit Switch Assembly, 2-1/2" Pressure gauge with isolation valve installed on inlet of valve (0-200 psi (unless otherwise specified), wt. 355 lbs.	1	6,858.00	6,858.00T
8" Cla-Val 210G-03 BYKC, same as 6" above EXCEPT pressure gauge is 4" size, wt. 570 lbs.	1	9,180.00	9,180.00T
10" Cla-Val 210G-03 BYKC, same as 8" above, wt. 850 lbs.	1	9,995.00	9,995.00T
12" Cla-Val 210G-03 BYKC, same as 8" above, wt. 1235 lbs.	1	14,489.00	14,489.00T
