|-----------------------------|--------------------------|---------------------------------|---------------------------------------|-----------------------|-------------------------|-------------------------------------|
| New Participant Pipe | Air/Vac Valve | New Master Meter | Isolation Valve | Well Head | Other Utility Pipelines | Potential Regional Participants |
| Special Construction | Altitude Valve | New Pump Station | New Storage Tank | Pump Station | Sanitary Sewer | Gillette City Limits |
| Pipe Encasement | Blowoff | Storage Tank | Existing Collection Waterline | Overhead Power | Storm Drainage | Gillette Current Planning District |
| Pipe Bore | Chlorine Booster Station | Existing Distribution Waterline | Eight Mile Lines 2 & 3, Ridgeway Line | Underground Power | Overhead Telephone | Gillette Proposed Planning District |
| | | | | Underground Telephone | Cities and Subdivisions | Matchline |

NOTE:
This layout map is based on available topographic information and indicates the approximate proposed waterline alignment. Easements, right-of-ways and property ownership have not been investigated along the route. Locations of all utilities, structures, drainage and natural features are only indicated where data was readily available and are approximate. No survey, utility locates, or underground investigation have been conducted. Data provided by USGS, State of Wyoming, Campbell County, City of Gillette, and ESRI.
