NOTE:  
This layout map is based on available topographic information and indicates the approximate proposed waterline alignment. Easements, right-of-ways and property ownership have not been investigated along the route. Locations of all utilities, structures, drainage and natural features are only indicated where data was readily available and are approximate. No survey, utility locates, or underground investigation have been conducted. Data provided by USGS, State of Wyoming, Campbell County, City of Gillette, and ESRI.
